Article 13(4)(b) "(4) *The High Contracting Parties shall provide annual reports to the Depositary ... on:*  
(b) *mine clearance and rehabilitation programmes;*"

**Remarks**

No mined areas or areas suspected to contain mines are located on the territory of the Federal Republic of Germany.

High Contracting Party **FEDERAL REPUBLIC OF GERMANY**  
Reporting for time period from **July 1, 2007** to **June 30, 2008**

**INTRODUCTORY REMARKS**

---

Since 1993, the Federal Government has taken part in worldwide activities in mine clearance and rehabilitation programs. It has to date provided EUR 128.76 million for projects in 35 countries. In the *reporting period*, the Federal Government spent EUR 14.21 million for mine action projects.

In general the main support is focussed on—

- implementation of concrete mine clearance and UXO removal projects,

- mine clearance programs using mechanical means, mine detection dogs and manual methods,
- training of local deminers and UXO experts,
- establishment of national demining structures and support through German experts,
- field testing of modern mine clearance and sensor technology,
- acquisition of equipment,
- victim assistance and mine risk education programs,
- other rehabilitation programs.

---

The assistance provided by the Federal Government covers all aspects of global mine action, *i.e.* mine clearance, mine risk education, victim assistance, stockpile destruction, advocacy and rehabilitation. It is directed mainly to those countries where mines represent an immediate risk to civil population and a massive obstacle for development.

The assistance is primarily focussing on those countries, which have signed and ratified the Ottawa Convention. Some exceptions to this policy may apply, as for instance in cases of—

- emergency humanitarian assistance,

- assistance to mine victims,
- support to remote and vulnerable communities,
- assistance as part of development cooperation programs.

The Federal Government acts in response to requests from the U.N. Secretariat, other international organizations or the receiving countries. Assistance is provided to German and international nongovernmental organizations as well as to commercial companies for specific projects.

The German Government actively supports the coordinating role of the United Nations Mine Action Service (UNMAS).
