**Volume III. Problems and policies of trade in manufactures and semi-manufactures**

This volume contains selected studies submitted to the Conference dealing with trade in manufactures and semi-manufactures; these have been classified under three main headings:

(a) **Preferential or free entry of exports of manufactures and semi-manufactures of developing countries to the developed countries**

The studies in this section discuss the principal elements of a general non-discriminatory and non-reciprocal scheme of preferences for the exports of manufactures and semi-manufactures from developing countries; one of them deals specifically with the question of objective criteria for invoking an escape clause in a general scheme of preferences.

(b) **Programme for the liberalization and expansion of trade in manufactures and semi-manufactures of interest to developing countries**

These studies contain a survey of existing quantitative restrictions applied in selected developed market-economy countries to the trade in manufactures and semi-manufactures (including processed agricultural products) and make suggestions concerning a programme for trade liberalization.

(c) **Measures for the promotion, expansion and diversification of exports of manufactures and semi-manufactures from developing countries**

The papers in this section outline suggestions for a possible export promotion programme, and include a brief summary of United Nations technical assistance in trade and related fields.
