FORM C: Steps taken to implement Article 5 of the Protocol: Other precautions for the protection of the civilian population, individual civilians and civilian objects from the risks and effects of explosive remnants of war

High Contracting Party: New Zealand

Reporting for time period from: 01/01/2010 to 31/12/2010
[dd/mm/yyyy] [dd/mm/yyyy]

Steps taken to implement the provisions of Article 5 and the Technical Annex:

New Zealand Defence Force (NZDF) personnel are present in Afghanistan in the New Zealand Provincial reconstruction Team (NZPRT) in Bamyan Province. The NZPRT includes a two person explosive ordnance disposal (EOD) team. The NZDF EOD team disposes of explosive remnants of war (ERW) in two ways:

1. Disposal of ordnance that has been found by civilians and reported or delivered to the NZPRT. Such ordnance is either destroyed in situ when it is unsafe to move, or is collected and destroyed in batches by the EOD team.
2. Disposal of remnants of war in support of the Rewards Program initiated by the United States Department of Defence. The NZPRT and EOD team, under this program, conduct regular recovery operations of remnants of war within Bamyan province. Once inspected, recovered ordnance is then destroyed or delivered to the Afghan National Army.

According to Article 1, Paragraph 4 of Protocol V Article 5 only applies to ERW other than existing ERW as defined in Article 2, Paragraph 5 of the Protocol. Furthermore, New Zealand is neither a party to the conflict nor in control of territory in Afghanistan. Therefore the steps taken by NZDF personnel regarding precautions for the protection of civilians and civilian objects from the risks and effects of ERW should be regarded as an application of the spirit of the Treaty rather than as a result of any obligations under Protocol V.

- PROTOCOL V -**FORM F: Steps taken to implement Article 8 of the Protocol: Co-operation and assistance**High Contracting Party: New ZealandReporting for time period from: 01/01/2010 to 31/12/2010
[dd/mm/yyyy] [dd/mm/yyyy]**Steps taken to implement the provisions of Article 8:**

UNMAS: NZAID provides untagged core funding to UNMAS (UN Mine Action Service) of NZ\$1 million to support the organisation's work in removing and destroying mines, explosive remnants of war and stockpiles, risk education and advocacy. New Zealand funding also supports the work that UNMAS does around medical assistance and rehabilitation of those affected by mines. New Zealand provides one military Staff Officer to the UNMAS in New York

ICRC: NZAID provides NZ\$2.5 million each year in untagged core funding to support ICRC's (International Committee of the Red Cross) work including physical rehabilitation, preventative unexploded ordnance action programmes which focus on risk reduction, education and advocacy work. The advocacy work aims to reduce the human cost of mines and explosive remnants of war.

NZAID also prioritises core funding to other UN agencies such as UNICEF, United Nations Development Programme (UNDP), the UN High Commissioner for Refugees (UNHCR), the Office for the Coordination of Humanitarian Affairs (OCHA), the Office for the High Commissioner for Human Rights (OHCHR) and World Food Programme (WFP), all of which undertake unexploded ordnance clearance action activities as part of their work.

NZAID also gives priority funding to the World Bank which helps address the long term consequences of mines and unexploded ordnance of war on economic and social development.

Afghanistan

In addition to activities in Afghanistan under Articles 5 & 7, New Zealand provides one military liaison officer from the International Security Assistance Force (ISAF) to the UN Mine Action Centre for Afghanistan

Lao PDR

New Zealand announced a financial contribution of NZ\$1.1 million for clearance activities in November 2010. The funding will be used to clear unexploded ordnance in the Xieng Khuang province where New Zealand has also supported sustainable tourism development, including cluster munitions clearance, at one of the most popular tourist destinations in Laos, the Plain of Jars.

NZAID also contributed to the UNESCO/Mine Action Group four year clearance project which commenced in May 2006.

Cambodia

Cambodia Mine Action centre (CMAC): through the Asia Development Assistance Facility, NZAID is funding Quality Solutions International to carry out a two-year project with CMAC's training Centre to strengthen the training capabilities and capacity of the centre so that it best supports unexploded ordnance clearance action operations in Cambodia. It involves activities such as reviewing and updating the curriculum, upskilling staff, establishing the training centre as a centre of excellence, and facilitating regional collaboration in mine action in the wider GMS.

Egypt

NZAID contributed NZ\$200,000 in October 2008 to UNDP for the UNDP/Egypt Government mine and unexploded ordnance clearance action programme. This programme was ongoing into 2010.
