□ NO

□ Partially, only the following forms:

A □ B □ C □ D □ E □ F □ G □ H □ I □
FORM A  Steps taken to implement Article 3 of the Protocol: Clearance, removal or destruction of explosive remnants of war

High Contracting Party: Australia

Reporting for time period from 03 July 2007 to 31 December 2007

Steps taken to implement the provisions of Article 3

During the reporting period the use of explosive ordnance by the Australian Defence Force (ADF) did not result in Explosive Remnants of War (ERW) or Unexploded Ordnance (UXO).

Any other relevant information
FORM B    Steps taken to implement Article 4 of the Protocol: Recording, retaining and transmission of information

High Contracting Party: **Australia**

Reporting for time period from **03 July 2007** to **31 December 2007**

Steps taken to implement the provisions of Article 4 and the Technical Annex

The ADF tracks and records every use of an explosive ordnance. Detailed electronic reports are maintained by all relevant commands.

Any other relevant information
FORM C

Steps taken to implement Article 5 of the Protocol: Other precautions for the protection of the civilian population, individual civilians and civilian objects from the risks and effects of explosive remnants of war

High Contracting Party: Australia

Reporting for time period from 03 July 2007 to 31 December 2007

Steps taken to implement the provisions of Article 5 and the Technical Annex

The Australian Defence Force exercises a duty of care to all local nationals within any area affected by explosive remnants or war. Warnings, cordonning, evacuation and other safeguards are implemented prior to any recovery or destruction of ERW.

Any other relevant information
FORM D    Steps taken to implement Article 6 of the Protocol: Provisions for the protection of humanitarian missions and organizations from the effects of explosive remnants of war

High Contracting Party: Australia

Reporting for time period from 03 July 2007 to 31 December 2007.

Steps taken to implement the provisions of Article 6

With respect to Afghanistan, the Australian Defence Force provided protection and information to two Austcare representatives during the period 26 June to 12 July 2007.

With respect to Iraq, the Australian Defence Force provided protection and information to an Australian Agency for International Development (AusAID) representative during the period 12 September to 26 September 2007.

Defence did not receive any other requests from other humanitarian missions or organizations on the location of ERW in areas in which the Australian Defence Force were deployed on operations.

Any other relevant information
FORM E  Steps taken to implement Article 7 of the Protocol: Assistance with respect to existing explosive remnants of war

High Contracting Party: Australia

Reporting for time period from 03 July 2007 to 31 December 2007

Steps taken to implement the provisions of Article 7

During the reporting period, the Australian Defence Force provided security to other nations’ Explosive Ordnance Disposal Teams in the conduct of their operations. The Australian Defence Force also provided expertise and assistance to other nations to destroy ERW and/or UXO.

Specific Instances of assistance

The Royal Australian Navy (RAN) provided training and Explosive Ordnance Disposal assistance to the Solomon Island Police Force (SIPF) during the period 01-19 October 2007. The ERW was from the Second World War. Personnel from the Royal Australian Navy Diving School trained personnel from the SIPF in Explosive Ordnance Reconnaissance (EOR) and underwater EOD techniques. This training equips SIPF personnel with sufficient knowledge and skills to recognize ERW, determine its level of risk and in certain circumstances dispose of it. The trained SIPF officers will educate the civilian populace on the dangers of ERW.

Any other relevant information
FORM F  Steps taken to implement Article 8 of the Protocol: Co-operation and assistance

High Contracting Party: Australia

Reporting for time period from 03 July 2007 to 31 December 2007

Steps taken to implement the provisions of Article 8

During the reporting period, the Australian Defence Force provided assistance for the marking, removal and destruction of ERW to the Solomon Islands Police Force. Technical information is exchanged when providing this assistance.

Specific Instances of assistance

The Royal Australian Navy also exchanges information on a regular basis with the Defence establishments of Canada, New Zealand, United Kingdom and the United States as part of the Technical Co-operation Program (TTCP). In relation to ERW and the removal of ERW, this information concerns the capabilities of equipment, procedures employed, and results of tests, trials, exercises and operations. This information allows the participating nations to increase their knowledge of the problems involved with the removal of ERW and improve relevant skills and techniques.

Mine action is a significant part of Australia’s aid program. AusAID’s Mine Action Strategy has committed $75 million from 2005 to 2010. Mine Action has a focus on the heavily mine-affected countries of the Asian region. Under the strategy, Australia will spend an estimated $20 million in 2007-08 on de-mining, survivor assistance, mine risk education, and advocacy activities. As a signatory to Protocol V, our mine action activities address the impact of both landmines and ERW.

*Actual expenses for Australian Financial Year 2006/2007 for the period 1 July 2007 to 31 March 2008 are provided in this table. A complete record of Australia’s expenditure on mine action will not be available until the end of the financial year, which ends on 30 June 2008. Significant further expenditure on mine action is expected between 1 April to 30 June 2008.

FORM G Steps taken to implement Article 9 of the Protocol: Generic preventive measures

High Contracting Party: **Australia**

Reporting for time period from **03 July 2007** to **31 December 2007**.

Steps taken to implement the provisions of Article 9 the Technical Annex

The Australian Defence Force maintains Standard Operating Procedures for dealing with ERW outlining marking and reporting procedures. Procedural requirements for transporting and storing ordnance are also specified. These procedures comply with Article 9.

Defence compliance with the technical aspects of this Protocol is also achieved through Technical Regulations. Technical Regulatory Authorities (TRA) are accountable to Service Chiefs and provide appropriate assurance through established regulatory frameworks and auditing compliance within those frameworks. The TRA Council provides technical integrity regulation through established steering groups and working groups. Defence Explosive Ordnance Committee is an advisory committee that supports Commander Joint Logistics as the single point of accountability for the Defence-wide management of EO, reporting routinely to Defence Capability Committee.

*Munitions Manufacturing Management and Munitions Management.*

Defence mandates and ensures compliance to munitions manufacturing management and munitions management through the regulatory documents listed below.

*Future Production*

Defence, through the Defence Materiel Organisation actively researches and seeks to employ methods to achieve the highest possible reliability and safety of EO, by engaging industry and research organizations to enhance the reliability, suitability and safety of munitions.

FORM H

Steps taken to implement Article 11 of the Protocol: Compliance

High Contracting Party: Australia

Reporting for time period from 03 July 2007 to 31 December 2007

Steps taken to implement the provisions of Article 11

The Australian Defence Force has issued instructions to operational commands, which comply with the Protocol.

For example:

The ‘Standing Instructions LOG on Explosive Ordnance for Operation CATALYST (Iraq),’ dated 21 November 2007, requires among other things:

a. EO management process to follow current Australian Defence Force orders and instructions with respect to security, licensed storage and operational life;

b. All ammunition technical staff to be conversant with Australian Defence Force policy, orders and instructions as well as all current domestic EO management regulations for the storage, distribution, handling and maintenance of explosive ordnance in the Middle East Area of Operations;

c. The Senior Ammunition Technical Representative to ensure that EO was stored, transported, managed and disposed of safely by Task Groups in accordance with current Australian Defence Force legal and policy requirements; and

d. EO incidents particularly malfunctions, were to be reported on occurrence.

Furthermore, specific Protocol V requirements and procedures for dealing with ERW are covered in predeployment and ongoing training.
