

**CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING, PRODUCTION AND TRANSFER OF
ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION**

STATE [PARTY]:

REPUBLIC OF YEMEN

POINT OF CONTACT:

NATIONAL MINE ACTION COMMITTEE

Mr. Ali Mohammed Ali Al-Kadri
Manager of Yemen Mine Action Center
Tel.00 967 1 532115/ fax, 532129
Email: kadri2013@gmail.com

Form A National implementation measures

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
a) The national implementation measures referred to in Article 9."

Remark: In accordance with Article 9, "Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control".

State [Party]: REPUBLIC OF YEMEN reporting for time period from 31March 2012 to 31March 2013

Measures: The Parliament of Yemen issued, and the President signed law on 8\98 in June 1998. The law states that the Government of Yemen will enforce the ban from the day the law was issued.	Supplementary information (e.g., effective date of implementation & text of legislation attached).
Legislation have been approved by the parliament	Hard copy of Legislation with the full report been sent.

Form B Stockpiled anti-personnel mines

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
 b) The total of all stockpiled anti-personnel mines owned or possessed by it, or under its jurisdiction or control, to include a breakdown of the type, quantity and, if possible, lot numbers of each type of anti-personnel mine stockpiled."

State [Party]: REPUBLIC OF YEMEN reporting for time period from 31 March 2012 to 31 March 2013

1. Total of stockpiled anti-personnel mines

Type	Quantity	Lot # (if possible)	Supplementary information
PPMISR-2	16,000	/	The total from all Reports
POMZ-2	58500+30000	/	30,000 POM without explosives charge Was find in one of the oldest Military warehouse in Aden during shifting this place to a touristic site in Nov. 06
PMN	2000		
PMD6	1500		
TOTAL	108000		

2. Previously unknown stockpiles of anti-personnel mines discovered after the deadlines have passed. (Action #15 of Nairobi Action Plan) ^{1*}

Type	Quantity	Lot # (if possible)	Supplementary information
TOTAL			

* Pursuant to the decision of the 8MSP, as contained in paragraph 29 of the Final Report of the Meeting, document APLC/MSP.8/2007/6.

Form C Location of mined areas

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
c) To the extent possible, the location of all mined areas that contain, or are suspected to contain, anti-personnel mines under its jurisdiction or control, to include as much detail as possible regarding the type and quantity of each type of anti-personnel mine in each mined area and when they were emplaced."

State [Party]: REPUBLIC OF YEMEN reporting for time period from 31 March 2012 to 3 March 2013

1. Areas that contain mines*

Location	Type	Quantity	Date of Emplacement	Supplementary information
20 Governorates from 21	Mixed		62-67-79-83-1994	Mixed (look to the Statute)

2. Areas suspected to contain mines*

Location	Type	Quantity	Date of Emplacement	Supplementary information
Nil	AP & AT	Unknown-n		

* If necessary, a separate table for each mined area may be provided

Form D APMs retained or transferred

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

d) The types, quantities and, if possible, lot numbers of all anti-personnel mines retained or transferred for the development of and training in mine detection, mine clearance or mine destruction techniques, or transferred for the purpose of destruction, as well as the institutions authorized by a State Party to retain or transfer anti-personnel mines, in accordance with Article 3"

State [Party]: REPUBLIC OF TEMEN reporting for time period from 31 March 2012 to 31 March 2013

1a. **Compulsory:** Retained for development of and training in (*Article 3, para.1*)

Institution authorized by State Party	Type	Quantity	Lot # (if possible)	Supplementary information
MoD Military	We have no development facilities			
TOTAL	-----			

1b. **Voluntary information** (*Action #54 of Nairobi Action Plan*)

Objectives	Activity / Project	Supplementary information
		<i>(Description of programs or activities, their objectives and progress, types of mines, time period if and when appropriate...)</i>
		"Information on the plans requiring the retention of mines for the development of and training in mine detection, mine clearance, or mine destruction techniques and report on the actual use of retained mines and the results of such use"

NOTE: Each State Party should provide information on plans and future activities if and when appropriate and reserves the right to modify it at any time

Form D (continued)

2. Compulsory: Transferred for development of and training in (*Article 3, para.1*)

Institution authorized by State Party	Type	Quantity	Lot # (if possible)	Supplementary information: e.g. transferred from, transferred to
	PPMISR-2	940		Military Central storage Facilities in Sana'a and Aden to Military Engineering Department Training Facility and Mine Deduction Dogs Unit MDDU
	PMD-6	940		
	POMZ-2	940		
	PMN	940		
TOTAL	-----	3,760		

60 Mines of each type been used for dogs training

3. Compulsory: Transferred for the purpose of destruction (*Article 3, para.2*)

Institution authorized by State Party	Type	Quantity	Lot # (if possible)	Supplementary information: e.g. transferred from, transferred to
N.M.A.C	Nil	Nil		No more mines in stockpile.
TOTAL	-----			

Form E Status of programs for conversion or de-commissioning of APM production facilities

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
 e) The status of programs for the conversion or de-commissioning of anti-personnel mine production facilities."

State [Party]: REPUBLIC OF YEMEN reporting for time period from 31 March 2012 to 31 March 2013

Indicate if to "convert" or "decommission"	Status (indicate if "in process" or "completed")	Supplementary information
		Nil Production facilities in Yemen

Form F Status of programs for destruction of APMs

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
f) The status of programs for the destruction of anti-personnel mines in accordance with Articles 4 and 5,
including details of the methods which will be used in destruction, the location of all destruction sites and the
applicable safety and environmental standards to be observed."

State [Party]: REPUBLIC OF YEMEN reporting for time period from 31 March 2012 to 31 March 2013

1. Status of programs for destruction of stockpiled APMs (*Article 4*)

Description of the status of programs including:	Details of:
Location of destruction sites	
The last destruction was in 2008 in Aden ,Al-Whed	Methods: Explosive demolition/group detonation / crushing the body of the mines.
	Applicable safety standards: In accordance with the United Nation International Standards for disposal of Unexploded Ordnance.
	Applicable environmental standards: To be developed in co-operation With the Yemen Environmental Protection Council.

2. Status of programs for destruction of APMs in mined areas (*Article 5*)

Description of the status of programs including:	
Location of destruction sites within minefield being Surveyed and demined.	<p>Details of: Details of Demining program: 6 Units of Yemeni deminers, 1 small Unit (Platoon), 12 Survey teams, 8 ERW teams and 12 Dog teams and three MDDG have been trained and deployed on demining operations, Breeding started 7 years back and we have 7 Dogs been trained in 2012. Since June 1999A number of AT and AP Mines have been located and destroyed in site as per SOPs is 90146 and 196859 ERW have been located and destroyed.</p> <p>From the total 984 minefield marked, 815 Minefields have been fully cleared in accordance with UN International standards and handed over to the local population under Quality insurance procedures and for that we have 5 Quality insurance Teams. The clearance still ongoing in 61 and 95 minefields are ready to be cleared. And lately we declared Aden, Al Hodidah, Dhamar and Sana'a. Demining operation are decreased to 23 districts in Abb, Al Dhale'e, Sa'adah, Hadhramut, Lahij, Taiz, Abyan and Amran Governments. The fourteen high impact areas been surveyed and cleared, (In three communities three Minefields has been permanently marked and the total of 10 minefields permanently marked according to the National Mine Action plan. According to the Impact survey for Abyan and Sa'adah Governorates, the high impact communities have been increase to 33 Communities.</p> <p>The Medium impact communities have been increased from 86 Comm. to 163 communities and the 495 Low impact communities have been increased to 561Comm.</p>
	Methods: Mines are blown in situ using hand-placed explosive charges.
	Applicable safety standards, In accordance with United Nation International Humanitarian Standards for Demining.
	Applicable environmental standards: in accordance with the requirements of the Yemen Environmental protection Council.

Form G APMs destroyed after entry into force

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

g) The types and quantities of all anti-personnel mines destroyed after the entry into force of this Convention for that State Party, to include a breakdown of the quantity of each type of anti-personnel mine destroyed, in accordance with Articles 4 and 5, respectively, along with, if possible, the lot numbers of each type anti-personnel mine in the case of destruction in accordance with Article 4"

State [Party]: Republic of Yemen reporting for time period from 31 March 2012 to 31 March 2013

1. Destruction of stockpiled APMs (Article 4)

Type	Quantity	Lot # (if possible)	Supplementary information
PPMN-SR-2	16,000 30,000		Destruction was in 27 April 2002 with attendance of the Prim Minister Mr. Abdul Gader Bagmal, Ministers ambassadors, UNDP representative ICBL representative Government and NGOS representative in Yemen and the international press, in the destruction site in Aden The destruction of the 30000 Mines POMZ-2 take place on 16 Dec 2007 by crushing the body of the mines by a heavy machine(photo attached in 2008 report). The contain of the mines of TNT been used to destroy the UXOs.
PMD-6	1500		
PMN	2000

PMN	56 mm ht x 112 mm dia	Not integral but unnamed	Trotyl	200 g	Yes	Yes	

Form I Measures to provide warning to the population

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

- i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

Remark: In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects".

State [Party]: REPUBLIC OF YEMEN reporting for time period from 31 March 2012 to 31 March 2013

[Narrative:]

Yemen has established a National Mine Action Committee(NMAC)through Prime ministerial decree ,which is responsible for formulation Of the integrated national mine action plan, and directing the Yemen Mine Action Center to conduct mine action operations. A Mine Awareness Advisory committee (MAAC) has been established under the Chairmanship of the Deputy Minister for Information. This Committee is responsible for developing a national mine awareness campaign for submission to, and approval of, the NMAC. A level one survey was concluded, and provided detailed factual information concerning the location of mine affected areas, and , more importantly, the impact of landmines on effected communities. This information been used to produce a plan for prioritisation of all mine program assets. The plan includes mine clearance, minefield survey and marking, mine awareness and victim assistance. The 777 trained deminers and survey teams and 12 sets of MDD plus 3 MDDG,14 UXO disposal teams and 5 quality insurance teams are currently conducting Mine clearance, minefield survey and marking in the Medium and low impact regions in accordance with UN International Humanitarian Demining Standards. Mine Awareness field teams operate in the same areas prior to, and during ,marking operations to ensure the local population is aware of the ongoing operations, and are advised of the dangers of mines. The total affected communities 595 have been increased to be 757 with total area1,157,551,297 Sq.m. YEMAC has surveyed and cleared 810,578,075 Sq.Km. _ YEMAC face new challenge in Sada'a governorate after insurgences war. New kinds of mines made manually by insurgences and planted in Sada'a, some of them demined by the insurgences and they missed others. On October 2012, YEMAC started again demining in Sada'a after we insured that YEMAC teams will be in safe condition and a lot of mine accidents happened and many of people killed and injured.

YEMAC have started all activities (LIS, clearance, technical survey, MRE and VA). Lately, the war events have extended to Hajjah governorate and many mines accidents happened in this governorate to cause unknown number of civilian killed and injured. .

_ Abyan Governorate is one of the new governorates which completely affected by mines because of the war that started between the Yemeni army and Al Qaeda groups and YEMAC also have started demining in Abyan in June 2012 and started other activities (Level one Impact survey, Technical Survey, MRE and Victim Assistance).

In other Mine Awareness activities the MRE is ongoing in Abyan, Sa'adah, Hajjah, Aden and Hadhramout by supporting and corporation of UNCF. The MRE have conducted Field visit to 1032 villages and Targeted 789,702 Female and 866,916 Male and distributed all Mine awareness items to the people in these villages ,printing new materials.

During this period, mine risk education focused at Abyan, Sa'ada and Hajjah Governorates . New kinds of mines have been used in Sada'a and Hajjah Governorates and these mines printed on the brochures distributed to the refugees by MRE teams.

In terms of Victim Assistance, the Yemen Ministry of Health and Ministry of Insurance and Social Affairs, in conjunction with Yemen prosthetics centre and international NGO conduct support programs for mine victims. Community Based Rehabilitation projects are training more field workers to cover all priority areas including prosthetics, physical therapy, and reintegration in community life. We also have a victim registration file including an IMSMA for the new casualties . With this system we can keep the data in a well organised manner for current and future use beside we have data base for all victims in the victim assistance department . and schedule surgery examinations to provide them with all needs such as health care, artificial limbs and physical rehabilitation. The National Mine Action Program has a plan to continue to do so with all victims in Yemen. The full range of services will be on the victim assistance Program only to related Mine victims.(for the other disabled we refer people to Ministry of Health and Ministry of Social affairs).

With the three phases of the victim assistance programs we surveyed and registered 2789 all years. victims in all affected governorates except shabwah, Mareeb and Al Jawf governorates. From this number we reached the second phase (Medical Exam) 2029 victims and the third phase we supported 2059 all years. Each survivor will have a file explaining his physical situation.

Phase two is gathering all the survivors and transporting them to Aden hospital for surgery examination and identification of medical needs. Phase three (according to the medical report made by the specialist doctors), will provide the needs such as, hearing devices, artificial limbs, lenses, glasses and re-corrective operation of the amputees, as well as physical rehabilitation .

With this it is a great honor for the program to announce that we have reached to a big number of survivors that we have arranged different surgeon operations, distributed 282 surgery + Eye surg.,307 artificial limbs, 482 eye glasses and 186 wheel chairs. 160 Hearing aid ,293 PH therapy, 156 shoes , 87 belts , 193 crutches and 509 investigation.

The fourth Phase of Victim Assistance program started after we received the generous contribution from the Government of Japan. support for this Phase by establishing Yemen Association for the Mine /UXO survivors which trained and created different Jobs opportunity for 250 F/M survivors and the YALS is in a great need for fund and they are struggling to run the YALS since 2006 . On March 2010, YALS started refreshing after receiving the first installment of the U.S.A support.

Form J Other relevant matters

Remark: States Parties may use this form to report voluntarily on other relevant matters, including matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7. States Parties are encouraged to use this form to report on activities undertaken with respect to Article 6, and in particular to report on assistance provided for the care and rehabilitation, and social and economic reintegration, of mine victims.

State [Party]: REPUBLIC OF YEMEN reporting for time period from 31 March 2012 to 31 March 2013

[Narrative / reference to other reports:]

During 2012, the security situation became much better than 2011 so, YEMAC could fullfit the plan for Sa'ada, Abyan.
