INFORMATION TO THE ARMED FORCES:
The appropriate doctrine, all operational and training publications have been revised in order to incorporate requirements arising from Amended Protocol II. The contents and the provisions of the Protocol have been disseminated periodically focusing on the Armed Forces. In the Army, the protocol has been distributed down to the level of regiment/battalion through an informative Note, including this information in training programmes too. All military units operating on land - and particularly abroad - have been duly instructed.

INFORMATION TO THE CIVILIAN POPULATION:
A National Committee for Mine Action was informally established in February 1999 bringing together all interested actors (both in the governmental and the non governmental side) and promoting close co-operation concerning policy and operative standards. The National Committee elaborated general guidelines for Italian mine-action in the frame of Italian international co-operation. The last committee's meeting took place on December 23, 2009.

ONG and civil society representatives are regularly involved in the decisional process focused on defining projects and areas to be financed through the "Fund for Humanitarian Demining", established by law 58/2001. According to the same law, a specific report describing activities financed through the Fund is presented to the Italian Parliament once a year.

Regular information on the Italian policy concerning of mine action are provided in written form to the parliament every six months, according to law no. 374/1997 (which introduced in Italy the total ban on anti-personnel landmines).
