Only the reporting forms which are indicated as „changed“ have to be submitted thereafter together with the Cover page and the Summary Sheet.
REPORT CONCERNING THE CCW COMPLIANCE MECHANISM AS
ESTABLISHED BY THE HIGH CONTRACTING PARTIES AT THE THIRD
REVIEW CONFERENCE IN 2006

(a) Dissemination of information on the Convention and its annexed Protocols to their
armed forces and to the civilian population.

*All obligations of the Convention and its annexed Protocols are integrated in basic
military training. The legal aspects are included in Norwegian officer- and NCO
education.*

*The Norwegian government supports initiatives to convey the general understanding
of International Humanitarian Law to the general public.*

(b) Steps taken to meet the relevant technical requirements of the Convention and its
annexed Protocols and any other relevant information pertaining thereto.

*The technical requirements of the Convention and its annexed Protocols are
integrated into relevant regulations/procedures etc. for the Norwegian Armed
Forces, including for Norwegian military procurement and refurbishing
programmes.*

(c) Legislation related to the Convention and its annexed Protocols.

*The Convention and its annexed Protocols were, as part of normal routines,
assessed for legislative measures at the time of their ratification. National
Norwegian legislation is deemed adequate.*

(d) Measures taken on technical co-operation and assistance.

*Norway is a significant contributor to clearance and victim assistance, with a
particular view to the full implementation of the Mine Ban Convention and the
Convention on Cluster Munitions. Norway provides annual contributions of
approximately 40 million USD of official development aid for victim assistance,
mine risk education, stockpile destruction, clearance, removal and destruction of
explosive remnants of war in affected states as well as for advocacy work and studies
relevant to the implementation of these conventions.*

(e) Other relevant matters.

*Norway signed and ratified the Convention on Cluster Munitions in December 2008.
Norway completed destruction of all its existing stockpiles of cluster munitions in
July 2010, before the Convention entered into force.*

*Norway is not in a position to appoint experts for a pool at this time.*
