

CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING, PRODUCTION AND TRANSFER OF
ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION

Reporting Formats for Article 7

Tables of formats may be expanded as desired

[In future years, cite article 7, paragraphs 2 and 3 regarding annual updates]

NAME OF STATE [PARTY]: **REPUBLIC OF YEMEN**

DATE OF SUBMISSION **31 March 2008**

POINT OF CONTACT: **NATIONAL MINE ACTION COMMITTEE** (Yemen Mine Action Center)
(tel.00 967 1 532115/ fax, 532129) (Email: MANSAZI@y.net.ye

Form A National implementation measures

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
a) The national implementation measures referred to in Article 9."

Remark: In accordance with Article 9, "Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control".

State [Party]:**REPUBLIC OF YEMEN** reporting for time period from **31March 2007 TO 31 March 2008**

Measures The Parliament of Yemen issued, and the President signed law on 8\98 in June 1998. The law states that the Government of Yemen will enforce the ban from the day the law was issued.	
Legislation have been approved by the parliament	hard copy of Legislation was send by DHL with the full report before last year

Form B Stockpiled anti-personnel mines

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

b) The total of all stockpiled anti-personnel mines owned or possessed by it, or under its jurisdiction or control, to include a breakdown of the type, quantity and, if possible, lot numbers of each type of anti-personnel mine stockpiled."

State [Party]: **REPUBLIC OF YEMEN** reporting for time period from **31 March 2007 TO 31 March 2008**

Type	Quantity	Lot # (if possible)	Supplementary information
PPMISR-	16,000	/	The total from all Reports
POM-2	58500+30000	/	30,000 POM without explosives charge Was find in one of the oldest Military warehouse in Aden during shifting this place to a touristic site in Nov. 06
PMN	2000		
PMD6	1500		
Total		108000	

Form C Location of mined areas

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

c) To the extent possible, the location of all mined areas that contain, or are suspected to contain, anti-personnel mines under its jurisdiction or control, to include as much detail as possible regarding the type and quantity of each type of anti-personnel mine in each mined area and when they were emplaced."

State [Party]: **REPUBLIC OF YEMEN** reporting for time period from **31 March 2007 TO 31 March 2008**

1. Areas that contain mines*

Form E Status of programs for conversion or de-commissioning of APM production facilities

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

e) The status of programs for the conversion or de-commissioning of anti-personnel mine production facilities."

State [Party]: **REPUBLIC OF YEMEN** reporting for time period from **31 March 2007 TO 31 March 2008**

Indicate if to "convert" or "decommission"	Status (indicate if "in process" or "completed")	Supplementary information
		Nil Production facilities in Yemen

Form F Status of programs for destruction of APMs

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
 f) The status of programs for the destruction of anti-personnel mines in accordance with Articles 4 and 5,
 including details of the methods which will be used in destruction, the location of all destruction sites and the
 applicable safety and environmental standards to be observed."

State [Party]: **REPUBLIC OF YEMEN** reporting for time period from **31 March 2007 TO 31 March 2008**

1. Status of programs for destruction of stockpiled APMs (Article 4)

Description of the status of programs including:	No more stockpile in Yemen
Location of destruction sites :Aden ,Al-Whed	Methods: Explosive demolition/group detonation / crushing the body of the mines.
	Applicable safety standards: In accordance with the United Nation International Standards for disposal of Unexploded Ordnance.
	Applicable environmental standards: To be developed in co-operation With the Yemen Environmental Protection Council.

2. Status of programs for destruction of APMs in mined areas (Article 5)

Description of the status of programs including:	
Location of destruction sites: within minefield Being Surveyed and demined.	<p>Details of Demining program: 8 Units of Yemeni deminers and 5 small Units(Platoons) and 12 Survey teams and 12 Dog teams and four MDDG have been trained and deployed on demining operations, Breeding started 3 years back and we have 18 Dogs been trained. Since June 1999A number of AT and AP Mines have been located and destroyed in situ as per SOPs. 546 Minefields have been fully cleared in accordance with UN International standards and handed over to the local population under Quality insurance procedures and for that we have 5 Quality insurance Teams . And lately we declared Aden and Hodidah Governorates free of Mines and Hajjah, Raimah and Sana'a will be declare free of Mines soon. Demining operation are reduced to 12 districts in Abb, Al Dhale'e , Hadhramut Sana'a , abyan, , and Al baidha, Lahij and Shabwah Governments the fourteen high impact areas been surveyed and cleared, (In one community one Minefield has been permanently marked after been cleared) according to the National Mine Action plan . From the Medium 86 Comm. we surveyed and cleared 79 Comm. And from the Low 494 Comm. we surveyed and cleared 272 Comm.</p>
	Methods: Mines are blown in situ using hand-placed explosive charges.
	Applicable safety standards, In accordance with United Nation International Humanitarian Standards for Demining.
	Applicable environmental standards: in accordance with the requirements of the Yemen Environmental protection Council.

Form G APMs destroyed after entry into force

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

g) The types and quantities of all anti-personnel mines destroyed after the entry into force of this Convention for that State Party, to include a breakdown of the quantity of each type of anti-personnel mine destroyed, in accordance with Articles 4 and 5, respectively, along with, if possible, the lot numbers of each type anti-personnel mine in the case of destruction in accordance with Article 4"

State [Party]: **Republic of Yemen** reporting for time period from **31 March 2007 TO 31 March 2008**

1. Destruction of stockpiled APMs (Article 4)

Form I Measures to provide warning to the population

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
 i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

Remark: In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects".

State [Party]: REPUBLIC OF YEMEN reporting for time period from **31 March 2007 TO 31 March 2008**

Yemen has established a National Mine Action Committee(NMAC)through Prime ministerial decree ,which is responsible for formulation Of the integrated national mine action plan, and directing the Yemen Mine Action Center to conduct mine action operations. A Mine Awareness Advisory committee (MAAC) has been established under the Chairmanship of the Deputy Minister for Information. This Committee is responsible for developing a national mine awareness campaign for submission to, and approval of, the NMAC. A level one survey was concluded, and provided detailed factual information concerning the location of mine affected areas, and , more importantly, the impact of landmines on effected communities. This information been used to produce a plan for prioritisation of all mine program assets. The plan includes mine clearance, minefield survey and marking, mine awareness and victim assistance. The 777 trained deminers and survey teams and 12 sets of MDD plus 3 MDDG,14 UXO disposal teams and 5 quality insurance teams are currently conducting Mine clearance, minefield survey and marking in the Medium and low impact regions in accordance with UN International Humanitarian Demining Standards. Mine Awareness field teams operate in the same areas prior to, and during ,marking operations to ensure the local population is aware of the ongoing operations, and are advised of the dangers of mines. .2001 establish technical survey teams and deployed in the impact areas and surveyed the impact areas and handed over to the demining company for clearance the high is Cleared, from the 86 Medium impact comm. we surveyed and cleared 79 comm. And from the 494 low impact comm. we surveyed and cleared 272 comm.

In other Mine Awareness activities the MRE department have implemented a nation wide Awareness campaign which includes training personnel from the Ministry of Information and education who in turn have trained community based mine awareness cells in conducting child-to-child instruction and other innovative methods including Theatre groups, musicians, and poster and poetry competitions. and lately we conducted Mine Awareness Field visit to 529 villages and trained 223M/F to contact MRE in there comm.. and made 22 workshops and Targeted 385611 Female and 423066 Male and distributed all Mine awareness items to the people in these villages ,printing new materials , and by that, mine awareness teams finished the high and the medium impact areas and now we are working in the low areas plus they are engaged in hand over and documentation ceremony the cleared Mine fields .

The Yemen Mine Awareness Association have no activities during 2007 due to no availability of fund.

In terms of Victim Assistance, the Yemen Ministry of Health and Ministry of Insurance and Social Affairs, in conjunction with Yemen prosthetics centre and international NGO conduct support programs for mine victims. Community Based Rehabilitation projects are training more field workers to cover all priority areas including prosthetics, physical therapy, and reintegration in community life. Lately we have conducted a level two survey (including medical and physical examinations) to give medical, surgical and rehabilitation support for landmine victims. We also have a victim registration file including an IMSMA for the new casualties . With this system we can keep the data in a well organised manner for current and future use beside we have data base for all victims in the victim assistance department . and schedule surgery examinations to provide them with all needs such as health care, artificial limbs and physical rehabilitation. The National Mine Action Program has a plan to continue to do so with all victims in Yemen. The full range of services will be on the victim assistance Program only to related Mine victims.(for the other disabled we are refer people to Ministry of Health and Ministry of Social affairs).

With the three phases of the victim assistance programs we surveyed and registered 1447 all years. victims in Ibb, Taiz .Aden and Al-Dale'e – Radda Al biadha ,Hadhramout and governorates. From this number we supported and reached the second phase 1006 and the third phase we supported 1366 all years.Each survivor will have a file explaining his physical situation.

Phase two is gathering all the survivors and transporting them to Aden hospital for surgery examination and identification of medical needs. Phase three (according to the medical report made by the specialist doctors), will provide the needs such as, hearing devices, artificial limbs, lenses, glasses and re-corrective operation of the amputees, as well as physical rehabilitation .

With this it is a great honor for the program to announce that we have reached to a big number of survivors that we have arranged 274 different surgeon operations, distributed 228 artificial limbs, 260 eye glasses and 89 wheel chairs. 91 Hearing aid ,138 PH therapy, 24 shoes , 7 belts ,47 crutches and 274 investigation.

The fourth Phase of Victim Assistance program started after we received the generous contribution from the Government of Japan. support for this Phase by establishing Yemen Association for the Mine /UXO survivors which trained and created different Jobs opportunity for the 180 F/M survivors and The YALS is in a greet need for fund and the are struggling to run the YALS since 2006 .
