1. Notes on using the cover page:

1. The cover page could be used as a complement to submitting detailed forms adopted at the Meetings of the States parties in instances when the information to be provided in some of the forms in an annual report is the same as in past reports. That is, when using the cover page, only forms within which there is new information would need to be submitted.

2. The cover page could be used as a substitute for submitting detailed forms adopted at the Meetings of the States parties only if all of the information to be provided in an annual report is the same as in past reports.

3. If an indication is made on the cover sheet that the information to be provided with respect to a particular form would be unchanged in relationship to a previous year's form, the date of submission of the previous form should be clearly indicated.

4. The cover page may be used for subsequent annual reports and is not to be used for the initial Article 7 report submission.

**Footnote 1:** The Convention on Cluster Munitions was signed by South Africa in 2008 with the consent of the President. The Convention was tabled for ratification in Parliament in January 2014. In terms of the ratification and the restrictions imposed, the RSA requires the destruction of the stockpile of prohibited cluster munitions within the specified 8 year time-frame. To this end, Phase 1 has been completed during 2015. Phase 1 entails that all prohibited cluster munitions are taken out of commission and ring-fenced for planned disposal. This process was successfully completed. Disposal will commence during 2016.

Reporting period: 01 JANUARY 2015 to 31 DECEMBER 2015

1. National focal point/co-ordination mechanism for the implementation of article 5 (specify name and contact information of government body responsible)

None. No conflict areas.

2. Data collection and assessment of the needs of cluster munitions victims (please indicate gender and age of survivors as well as information on affected families and communities)

None. No conflict areas.

3. Development and implementation of national laws and policies for implementation of article 5

The Convention on Cluster Munitions was signed by South Africa in 2008 with the consent of the President. The Convention was tabled for ratification in Parliament in January 2014. In terms of the ratification and the restrictions imposed, the RSA requires the destruction of the stockpile of prohibited cluster munitions within the specified 8 year time-frame. To this end, Phase 1 has been completed during 2015. Phase 1 entails that all prohibited cluster munitions are taken out of commission and ring-fenced for planned disposal. This process was successfully completed. Disposal will commence during 2016.
4. National plan and budget, including timeframes to carry out these activities

Not applicable. CM ring-fenced. Disposal within the approved timescale (eight years commencing in 2015) as per Obligation. Part of SANDF EO disposal plan and budget.

Note: If necessary, plans/budgets may be provided separately.

5. Efforts to closely consult with and actively involve cluster munition victims and their representative organisations in victim assistance planning and implementation
