Reply of the State of Qatar concerning the UNGA Resolution (53/67) 2012:

"To ensure Qatari support for the resolution of the state of Qatar concerning the UNGA Resolution (53/67) 2012:"

The State of Qatar supports and signing of a convention on the ban of production of fissile material for nuclear weapons and other explosive devices, provided that the convention is multilateral, is not discriminatory, it includes the current inventory and can be effectively verifiable at the international level. The State of Qatar believes that this convention will contribute to a large extent in preventing nuclear proliferation and in nuclear disarmament.
