34/71. Implementation of General Assembly resolution 33/58 concerning the signature and ratification of Additional Protocol I of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco)

The General Assembly,

Taking into account that certain territories lying within the zone of application of that Treaty which are not sovereign political entities are nevertheless in a position to receive the benefits deriving from the Treaty through its Additional Protocol I, to which the States that de jure or de facto are internationally responsible for those territories may become parties,

Recalling with satisfaction that the United Kingdom of Great Britain and Northern Ireland and the Kingdom of the Netherlands became parties to Additional Protocol I in 1969 and 1971, respectively, and that the United States of America signed it in 1977,

Noting also with satisfaction that Additional Protocol I was signed by France on 2 March 1979,

1. Invites France and the United States of America to take all necessary steps to secure the ratification of Additional Protocol I of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco) at the earliest possible date;

2. Decides to include in the provisional agenda of its thirty-fifth session an item entitled "Implementation of General Assembly resolution 34/71 concerning the signature and ratification of Additional Protocol I of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco)".

97th plenary meeting
11 December 1979

34/72. Chemical and bacteriological (biological) weapons

The General Assembly,

Reaffirming also the necessity of strict observance by all States of the principles and objectives of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925, and of the adherence by all States to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction,

Having considered the report of the Committee on Disarmament, 6

1. Expresses its regret that the agreement on the complete and effective prohibition of the development, production and stockpiling of all chemical weapons and on their destruction has not yet been elaborated;

2. Urges the Committee on Disarmament to undertake, at the beginning of its session in 1980, negotiations on an agreement on the complete and effective prohibition of the development, production and stockpiling of all chemical weapons and on their destruction, as a matter of high priority, taking into account all existing proposals and future initiatives;

7 Resolution 2826 (XXVI), annex.
3. Requests the Committee on Disarmament to report on the results of its negotiations to the General Assembly at its thirty-fifth session.

97th plenary meeting 11 December 1979

34/73. Implementation of General Assembly resolution 33/60

The General Assembly,

Reaffirming its conviction that the cessation of nuclear-weapon testing by all States in all environments would be in the interest of all mankind as a major step towards ending the qualitative improvement, development and proliferation of nuclear weapons, as a means of relieving the deep apprehension concerning the harmful consequences of radio-active contamination for the health of present and future generations and as a contribution towards the cessation of the nuclear arms race,

Recalling the determination of the parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water* and the Treaty on the Non-Proliferation of Nuclear Weapons* expressed in those Treaties to continue negotiations to achieve the discontinuance of all test explosions of nuclear weapons for all time,

Recalling its previous resolutions on the subject, in particular resolution 32/78 of 12 December 1977, paragraph 51 of resolution S-10/2 of 30 June 1978, resolution 33/60 of 14 December 1978 and section IV of resolution 33/71 of 14 December 1978,

Emphasizing the urgent need for all nuclear-weapon States to cease the testing of nuclear weapons,

Recognizing the importance to a treaty prohibiting nuclear testing of the study being carried out by the Ad Hoc Group of Scientific Experts to Consider International Co-operative Measures to Detect and Identify Seismic Events on a global network of stations for the exchange of seismological data,

Recognizing the indispensable role of the Committee on Disarmament in the negotiation of a comprehensive test-ban treaty,

Noting with dissatisfaction that part of the report of the Committee on Disarmament relating to the question of a comprehensive test-ban treaty shows no progress in the consideration of this subject and that a full report on the status of the negotiations between the three nuclear-weapon States was not submitted,

1. Reiterates its grave concern at the fact that nuclear-weapon testing continues unabated against the wishes of the overwhelming majority of Member States;

2. Reaffirms its conviction that a treaty to achieve the prohibition of all nuclear test explosions by all States for all time is a matter of the highest priority;

3. Expresses its conviction that positive progress in the negotiations by the Committee on Disarmament on such a treaty is a vital element for the success of efforts to prevent both vertical and horizontal proliferation of nuclear weapons and will contribute towards an end to the arms race and the achievement of nuclear disarmament;

4. Requests the Committee on Disarmament to initiate negotiations on such a treaty as a matter of the highest priority;

5. Calls upon the three negotiating nuclear-weapon States to use their best endeavours to bring their negotiations to a positive conclusion in time for consideration during the next session of the Committee on Disarmament;

6. Invites Governments of Member States to contribute to the further development of national and international co-operative measures to detect seismic events aimed at setting up a global verification system of a comprehensive test-ban treaty and to co-operate with the Ad Hoc Group of Scientific Experts to Consider International Co-operative Measures to Detect and Identify Seismic Events for the fulfilment of its mandate;

7. Decides to include in the provisional agenda of its thirty-fifth session an item relating to the implementation of the present resolution.

97th plenary meeting 11 December 1979

34/74. Implementation of General Assembly resolution 33/60 concerning the signature and ratification of Additional Protocol II of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco)

The General Assembly,

Reaffirming its conviction, now corroborated by international practice, that, for the maximum effectiveness of any treaty establishing a nuclear-weapon-free zone, the co-operation of the nuclear-weapon States is necessary and that such co-operation should take the form of commitments likewise undertaken in a formal international instrument which is legally binding, such as a treaty, convention or protocol,

Welcomes the fact that Additional Protocol II of the Treaty for the Prohibition of Nuclear Weapons in Latin America (Treaty of Tlatelolco) has already been signed and ratified by the United Kingdom of Great Britain and Northern Ireland, the United States of America, France, the People's Republic of China and the Union of Soviet Socialist Republics, thus fulfilling an aspiration of the General Assembly.

97th plenary meeting 11 December 1979

34/75. Consideration of the declaration of the 1980s as the Second Disarmament Decade

The General Assembly,

Recalling its resolution 33/62 of 14 December 1978, Bearing in mind that the Disarmament Decade, declared by its resolution 2602 E (XXIV) of 16 December 1969, is coming to an end,
