INTERNATIONAL COOPERATION ON MINE CLEARANCE:

ITF Enhancing Human Security is a non-profit, humanitarian organisation established by the Government of the Republic of Slovenia in 1998, originally to provide assistance to Bosnia and Herzegovina, and later other mine-affected countries in Southeast Europe in the field of mine action. Outstanding results in the region have encouraged further engagement and today ITF is actively engaged in Eastern Europe, Central Asia, South Caucasus, Africa, Latin America and the Middle East.

This far, with support of its donors, ITF has contributed significantly to the resolution of the mine/ERW issue, carrying out over 3.100 mine action projects, clearing altogether over 148 million square metres of mine and unexploded remnants of war contaminated areas in South East Europe, Lebanon and Azerbaijan. Furthermore, 1.303 mine/ERW victims from South East Europe, the Gaza Strip, Libya, Lebanon, South Caucasus and Ukraine benefited from its physical rehabilitation programmes. So far, almost 500.000 school children and adults, living in mine-contaminated areas, received mine risk education directly, and over 610.000 family members indirectly. ITF has trained more than 1.200 experts in humanitarian demining, rehabilitation, stockpile destruction and/or mine action

AMENDED PROTOCOL II

management mine action management. It also supports activities of national mine action centres in mine-affected countries.

Since its foundation, more than 400 donors have made donations to ITF for its activities. Altogether the donors have allocated more than USD 444 million for ITF's activities ITF. The matching fund mechanism ensures that, if donors agree, every US dollar, raised by ITF, is matched by an additional dollar provided by the US Government. The Government of the Republic of Slovenia has altogether allocated almost USD 15 million for ITF's activities.
