AMENDED PROTOCOL II

Form C

Technical requirements and relevant information

Article 13, paragraph 4 (c) “The High Contracting Parties shall provide annual reports to the Depositary [...] on [...] :

(c) steps taken to meet technical requirements of this Protocol and any other relevant information pertaining thereto;”

Remark:

High Contracting Party:

PAKISTAN

Reporting for time period
from: 01/01/2012 to: 31/12/2012

TECHNICAL REQUIREMENTS:

1. Technical requirements, as given in the Technical Annex to the Amended protocol II, have been incorporated at all appropriate levels.
2. The procedures for making, recording, storage and transmission of information of all types of mines are in place. Pakistan Army has specialist units/organizations (Ammunition Technical Officer/Ammunition Experts and Bomb Disposal Units) earmarked and trained for such functions.
3. The existing mine warfare drills, though comprehensive, have been further refined in conformity to the Protocol.
4. Existing perimeter marking signals have been painted and marked as per Amended Protocol-II.
5. The Anti Personal Mines being produced by Pakistan Ordnance Factories (POF) have been modified to meet the detectability requirements as required under Amended Protocol-II.
6. The Existing stockpiles have been made detectable by installation of detecting discs.
7. Recording of Minefield: The existing minefield recording proforma has been revised to conform to the technical requirements of Amended Protocol II and incorporation of modern technology in the form of Geographical Information System (GIS) and Global Positioning System (GPS). The recording procedure being adopted/details recorded are as follows:
   a) Number and types of mines laid.
   b) Location of each mine with reference to prominent landmarks identified with GPS based systems.
   c) Details of perimeter fence and other marking technique adopted.
   d) Copy of this record is sent to Headquarters at various tiers for reference.
Form D  Legislation

Article 13, paragraph 4 (d)  “The High Contracting Parties shall provide annual reports to the Depositary […] on […]:

(d) legislation related to this Protocol;”

Remark:

High Contracting Party:  PAKISTAN

Reporting for time period from:  01/01/2012 to:  31/12/2012

dd/mm/yyyy  dd/mm/yyyy

LEGISLATION:

No manufacturing or trade of landmines is allowed in the Private Sectors.
AMENDED PROTOCOL II

Form E International technical information exchange, cooperation on mine clearance, technical cooperation and assistance

Article 13, paragraph 4 (e) "The High Contracting Parties shall provide annual reports to the Depositary […] on […]:

(e) measures taken on international technical information exchange, on international cooperation on mine clearance, and on technical cooperation and assistance;"

Remark:

High Contracting Party: PAKISTAN

Reporting for time period from: 01/01/2012 to: 31/12/2012

INTERNATIONAL TECHNICAL INFORMATION EXCHANGE:
No change.

INTERNATIONAL COOPERATION ON MINE CLEARANCE:
Pakistan Army being amongst largest contributors to UN Peace Keeping Missions has been participating effectively in de-mining efforts in the past. Pakistan Army undertook de-mining operations in past including Kuwait, Cambodia and angola. Pakistan Army undertook de-mining operations in Sudan from May 2006 to August 2011, clearing an area of 13,18,770 sq-m including finding and destruction of 1133 UXOs, 1626 ERWs and 226 anti personnel mines. During the period under reporting Pakistani Explosive Ordnance Disposal Teams in Liberia recovered and destroyed 351 UXOs and large quantity of small arms ammunition.

TECHNICAL COOPERATION AND ASSISTANCE:
As above

CONVENTION ON CERTAIN CONVENTIONAL WEAPONS
AMENDED PROTOCOL II

**Form F**

**Other relevant matters**

Article 13, paragraph 4 (f)  "The High Contracting Parties shall provide annual reports to the Depositary [...] on [...] :

(f) other relevant matters."

</table>

**OTHER RELEVANT MATTERS:**

A total of 2107 APMs have been destroyed by Pakistan Army during the reporting period.

Details of type and quantity are as follows:

a. Mine AP ND P2  - 645
b. Mine AP (NM) M14 - 165
c. Mine AP P 4Mk-1 - 1020
d. Mine AP M2A4 Jumping P-7 - 18
e. Mine Anti-Personnel Sharpnel P-50 - 259

**Total** - 2107
Form G

Information to the UN-database on mine clearance

Article 11, paragraph 2,

"2. Each High Contracting Party undertakes to provide information to the database on mine clearance established within the United Nations System, especially information concerning various means and technologies of mine clearance, and lists of experts, expert agencies or national points of contact on mine clearance."

Remark:

High Contracting Party:

PAKISTAN

Reporting for time period

from: 01/01/2012 to: 31/12/2012

dd/mm/yyyy

dd/mm/yyyy

MEANS AND TECHNOLOGIES OF MINE CLEARANCE:

1. General Training
   a) Practice of breaching of enemy's mine fields is carried out during training exercises.
   b) Lifting of own as well as clearing of enemy mine fields on termination of hostilities.
   c) Filling of mine fields Record Performa is practiced during training cycles and other exercises.

2. Special Training: Selected officers and troops are trained and employed on bomb disposal procedures in peace time.

3. Methods of Mine Clearance: Following methods are being taught and practiced for clearance of mines:
   a) Manual Methods: By using prodder and electronic mine clearance means. Sufficient training on a variety of manual mine breaching techniques is also being imparted.
   b) Explosive Methods:
      i) MICLIC (Mine Clearance Line Charging).
      ii) Mine blasting Technique.
   c) Mechanical Methods
      i) Engineers Mine Plough (EMP)
      ii) Track Width Mine Plough (TWMP).
      iii) Full Width Mine Plough (FWMP)
   d) Technical Methods
      i) Metallic Mine Detectors
      ii) Non Metallic Mine Detectors

4. Technological Development - Development of Geographical Information System

CONVENTION ON CERTAIN CONVENTIONAL WEAPONS
AMENDED PROTOCOL II

(GIS): GIS has been deployed by Pakistan Army and it will be integrated in recording of any future mining operation along India-Pakistan border. However, Global Positioning System (GPS) has been successfully used in mine laying and lifting operations along India-Pakistan border.

LISTS OF EXPERTS AND EXPERT AGENCIES:
Military Operation Directorate, General Headquarters, Rawalpindi, Pakistan

NATIONAL POINTS OF CONTACT ON MINE CLEARANCE:
Ministry of Foreign Affairs (Disarmament Division), Islamabad, Pakistan
