Estonia continues to contribute financially to the United Nations Voluntary Trust Fund for Mine Action.

From 2007 – 2009, Estonia was one of the lead nations of NATO/PfP Georgia II Trust Fund for the demilitarization of rockets and missiles in Georgia. The project comprised the demilitarisation of S-8 Air to Surface unguided missiles, and Alazan and Kristall anti-hail rockets. Estonia contributed EUR 30,000 to the project.

In the fall of 2009 NATO/PfP Trust Fund project on ERW including anti-personnel land mines' clearance and medical rehabilitation support to Georgia (NATO/PfP Georgia III Trust Fund) was launched. The lead nations of the project are Estonia, Lithuania and the Czech Republic. The objectives of the project are the development and enhancement of Georgia's Explosive Ordnance Disposal (EOD) capacity, through the provision of specialist EOD equipment and training to the Georgian Armed Forces and the provision of the establishment of a physical rehabilitation centre at the Military Hospital in Gori. Project implementation has been successful and is expected to be fully finished by July 2012. Estonia's contribution has been EUR 120,000.
