Technical requirements

Technical requirements of the Amended Protocol II have been applied in armament as well as training and combat manuals of the Armed Forces of the Slovak Republic. Slovakia accomplished destruction of its stockpiled anti-personnel mines in 2000 and at the present it retains 1422 pcs of antipersonnel mines for the purpose of development of demining technology. In the following years, the above-mentioned APMs are to be used by National Centre of EOD Nováky and Military Technical and Testing Institute Záhorie for purpose of examination of UXO (Project – MUNLINK) and for clearance of equipment and training. These destructions might start this year.

Any other relevant information

In connection with commencement of mentioned projects all APMs have been moved to the Military Technical and Testing Institute Záhorie and the National Centre of EOD Nováky.
