Get your news @ UNOG Library!

The UNOG Library subscribes to a variety of print and electronic resources in many languages that give you access to news and strategic analysis of world events.

PRINT COLLECTION

Hundreds of magazines and daily newspapers from around the world are available in the Periodicals Reading Room on the 3rd floor of the UNOG Library.
UNOG Staff members may also have newspapers and magazines routed to their office. Contact us at library@unog.ch to request this service.

ELECTRONIC NEWSPAPERS AND MAGAZINES

The UNOG Library subscribes to online versions, including full text archives, of many newspapers and magazines that are not freely available on the Internet. They can be accessed through the A-to-Z list of electronic journals directly from UNOG office computers.

You can search the A-to-Z list by title, keyword or subject. Once you locate the newspaper or magazine you are seeking, you can also search the full text version and archives for the specific articles or the topics you are interested in.

EMAIL ALERTS AND RSS FEEDS

Many newspapers and magazines as well as intelligence services offer the possibility to set up customized email alerts and RSS feeds that allow you to keep up with new information via your email account or RSS reader without having to check these resources individually.

Collections of RSS feeds selected by UNOG Librarians have been incorporated into the Library’s newly revised resource guides on specific topics, such as Disarmament and Statistics. Visit http://www.unog.ch/library/resource-guides to view the latest updates.
STRATEGIC ANALYSIS AND INTELLIGENCE

The UNOG Library also provides access to strategic analysis of geopolitical, economic, social, business and industrial developments through the following services:

- **Oxford Analytica’s Daily Brief Services** analyzes developments of major significance around the world and explores the implications for governments and business.

- **Stratfor** provides strategic forecasting and intelligence analysis of existing or potential competitive and security threats to governments and companies.

- **Latin American Newsletters** provides daily, weekly and monthly updates on economic trends and events impacting on the countries of Latin America.

- **Economist Intelligence Unit** offers continuously updated analysis of political and economic trends, global outlook on macroeconomics, risk and executive briefings, international business newsletters, statistical tables of historical data and more, on nearly 200 countries.

- **World Bank Global Economic Monitor** provides daily, monthly and quarterly updates of global economic developments, with coverage of high income- as well as developing countries.

- **Factiva** provides precise research and news monitoring on companies, industries, issues and regional affairs. It includes thousands of news sources and Web sites in multiple languages.

GET ACCESS

Access to these resources is provided via the UNOG Library website at [http://www.unog.ch/library](http://www.unog.ch/library) under «Online Electronic Resources».

N.B.: Unless otherwise noted, full-text access is available directly from UNOG office workstations.

FURTHER QUESTIONS?

Contact us at library@unog.ch to set up an individual coaching session through the PKM programme and learn more about these services.

We welcome your questions and will be happy to provide research assistance. Save time, ask a librarian!
