DATE OF SUBMISSION : ...**27/01/2011**
[dd/mm/year]

REPORTING TIME PERIOD FROM ...**INITIAL REPORT – (2009/2010)**
[day/month] [day/month] [year]

NOTE : all data **shaded in grey** is provided on a VOLUNTARY basis but pertains to compliance and implementation not covered by the formal reporting requirements contained in Article 7.

¹ In accordance with Article 7.1 (1)

Form A National implementation measures

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
a) The national implementation measures referred to in Article 9."

Remark: In accordance with Article 9, "Each State Party shall take all appropriate legal, administrative and other measures to implement this Convention, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control."

State [Party]: **BELGIUM**

Reporting for time period:

INITIAL REPORT

Legal, administrative and other measures taken to implement the CCM (including imposition of penal sanctions)	Supplementary information (e.g., text and effective date of implementation measures, including legislation, administrative measures, policies and directives, training of military forces).
Signature of the Convention on December, 3 2008; Deposit of the Instrument of ratification on December,22 2009 Entry into force on 1 August 2010	Publication of the law of assent of the Convention in Belgium on 5 March 2010 in the Official Journal.

<p>Loi du 8 JUIN 2006 réglant des activités économiques et individuelles avec des armes.</p>	<p>This law (adopted by Federal Parliament) published on 9 June 2006 and entered into force on the same date defines the cluster munitions as “prohibited weapons” (Art.3 4°).</p> <p>The notion of “cluster munition” is defined at article 2.4°. This definition is wider than the one of the Convention.</p> <p>Article 8 prohibits the making, reparation, proposal for sale, sale, cession, transport, keeping as deposit, having or carrying of such cluster munitions.</p> <p>Whilst the provisions of this law are normally not applicable for the services of the State as defined by the Government, article 27 §2 of the law prohibits in any case the use, stockage, sale, acquisition and delivery by the State or public administrations of the cluster munitions.</p> <p>Penal sanctions are foreseen in Article 23 till 26 of the law.</p> <p>Full text (French) of the law is available on :</p> <p>http://www.ejustice.just.fgov.be/cgi_loi/change_lg.pl?language=fr&la=F&cn=2006060830&table_name=loi</p>
<p>Training of military forces</p>	<p>Officers assigned as “Advisers in the Law of Armed Conflict” are available in each unit (till battalion or independent company level) to advise military commanders on the application of the Law of Armed Conflict. The education programme of these advisers encloses among other subjects a general information about the (obligations and restrictions) of the Convention on Cluster Munitions.</p>

Form B Stockpiles and Destruction of Cluster Munitions

PART I : Stockpiled Cluster Munitions

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

(b) The total of all cluster munitions, including explosive submunitions, referred to in paragraph 1 of Article 3 of this Convention, to include a breakdown of their type, quantity and, if possible, lot numbers of each type;

(g) Stockpiles of cluster munitions, including explosive submunitions, discovered after reported completion of the programme referred to in sub-paragraph (e) of this paragraph, and plans for their destruction in accordance with Article 3 of this Convention.

State [Party]: BELGIUM reporting for time period: INITIAL REPORT

1. The total of all cluster munitions and explosive submunitions, stockpiled under the jurisdiction and control of the State Party

The following table does not include munitions retained for the purpose of training and expertise (in accordance with Article 3.6) reported in Form C

Cluster munition type	Quantity	Lot numbers (if possible)	Explosive submunition type	Total quantity of explosive submunitions	Lot numbers (if possible)	Supplementary information
N/A						
Total:			Total:			

2. Additional stockpiles discovered after reported completion of the programme for destruction

Cluster munition type	Quantity discovered	Lot number (if possible)	Explosive submunition type	Total quantity of explosive submunitions	Lot number (if possible)	Plans for destruction	Where, when and how discovered	Supplementary information
N/A								
Total:			Total:					

3. Status and progress ... in separating all CM under its jurisdiction and control from other munitions retained for operational use and marking them for the purpose of destruction (ref. Art 3(1))

Cluster munition type	Quantity separated and marked for destruction	Lot numbers (if possible)	Explosive submunition type	Total quantity separated and marked for destruction	Lot numbers (if possible)	Supplementary information
N/A						
Total:			Total:			

Form B (continued) Stockpiles and Destruction of Cluster Munitions

Part II : Status of programs for the destruction of Cluster Munitions

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

(e) The status and progress of programmes for the destruction, in accordance with Article 3 of this Convention, of cluster munitions, including explosive submunitions, with details of the methods that will be used in destruction, the location of all destruction sites and the applicable safety and environmental standards to be observed;

(f) The types and quantities of cluster munitions, including explosive submunitions, destroyed in accordance with Article 3 of this Convention, including details of the methods of destruction used, the location of the destruction sites and the applicable safety and environmental standards observed;

g) Stockpiles of cluster munitions, including explosive submunitions, discovered after reported completion of the programme referred to in sub-paragraph (e) of this paragraph, and plans for their destruction in accordance with Article 3 of this Convention;

State [Party]: BELGIUM reporting for time period: INITIAL REPORT

1. Status and progress of destruction programmes (Article 3)

Status	N/A
Plans, general information, timeline	
Methods that will be used ¹	
Name and location of destruction sites that will be used	
Applicable safety and environmental standards to be observed	
Progress since last report	
Supplementary information	

1 Reference to Form B (4).

2. Destruction of cluster munitions, including explosive submunitions, completed BEFORE the entry into force for the State Party (ONLY for initial reports)

Cluster munition type	Quantity destroyed	Lot number (if possible)	Explosive submunition type	Quantity destroyed	Lot number (if possible)	Date of Completion	Location of destruction sites	Supplementary information
155mm HE-ICM M483A1	4469	0001DZK85	M42/M46	10.138.480	N/A	6 th august 2010	Espodenti Sabino (ITA)	Via NAMSA Purchase Order 4500173561

Total:	115.210		Total:	10.138.480			

3. Types and quantities of cluster munitions, including explosive submunitions, destroyed in accordance with Article 3

3. a. After entry into force

Cluster munition type	Quantity destroyed	Lot number (if possible)	Explosive submunition type	Quantity destroyed*	Lot number (if possible)	Date of completion	Location of destruction sites	Supplementary information
N/A								
Total:			Total:					

3. b. Additional stockpiles destroyed after reported completion of the programme for destruction

Cluster munition type	Quantity destroyed	Lot number (if possible)	Explosive submunition type	Quantity destroyed *	Lot number (if possible)	Plans for destruction	Progress in destruction/ Date of completion
N/A							
Total:			Total:				

* INCLUDING explosive submunitions which are not contained in a cluster munition.

4. Methods of destruction used

Cluster munition type	Details of the methods of destruction used
155mm HE-ICM M483A1	Unpacking, ogive removal, extraction of grenades, metal scraps

Explosive submunition type	Details of the methods of destruction used
M42/M46	Grenades fuze removal, grenade Cryo-fracture, thermodisposal, metal scraps

5. Applicable safety and environmental standards observed in destruction

ISO 14001

6. Challenges and international assistance and cooperation needed for the implementation of Article 3

Activity	Description	Time period	Need
N/A			

Form C Cluster Munitions retained or transferred

Article 3.8. States Parties retaining, acquiring or transferring cluster munitions or explosive submunitions for the purposes described in paragraphs 6 and 7 of this Article shall submit a detailed report on the planned and actual use of these cluster munitions and explosive submunitions and their type, quantity and lot numbers. If cluster munitions or explosive submunitions are transferred to another State Party for these purposes, the report shall include reference to the receiving party. Such a report shall be prepared for each year during which a State Party retained, acquired or transferred cluster munitions or explosive submunitions and shall be submitted to the Secretary-General of the United Nations (...)."

State [Party]: BELGIUM reporting for time period from INITIAL REPORT to _____

1. Type of cluster munitions or explosive submunitions RETAINED in accordance with Article 3(6)

Cluster munition type	Quantity	Lot number	Explosive submunition type	Quantity	Lot number	Planned use	Supplementary information
155mm HE-ICM M483A1	300	6002DZK86	M42 (64 EA) /M46 (24 EA) (each cluster munition)	26.400	N/A	25 EA/year	Initial quantity for Training of EOD personnel
Total:	300		Total:	26.400			

2. Type of cluster munitions or explosive submunitions ACQUIRED in accordance with Article 3(6)

Cluster munition type	Quantity	Lot number	Explosive submunition type	Quantity	Lot number	Planned use	Supplementary information
N/A							
Total:			Total:				

3. Retained/acquired cluster munitions or explosive submunitions used during reporting period in accordance with Article 3(6)

Cluster munition type	Quantity used	Lot number	Explosive submunition type	Quantity used	Lot number	Description of actual use	Supplementary information (e.g. origin)
155mm HE-ICM M483A1	24	6002DZK86	M42 (64 EA) /M46 (24 EA)	2.112	N/A	Training of EOD personnel	Remaining quantity for Training of EOD personnel: 276 EA
Total:	24		Total:	2.112			

4. Type of cluster munitions or explosive submunitions transferred in accordance with Article 3(7)

Cluster munition type	Quantity	Lot number	Explosive submunition type	Quantity	Lot number	Purpose of transfer	Receiving State Party	Supplementary information (e.g. steps taken to ensure destruction in receiving state)
N/A

6.CARACTERISTIQUES

- Diamètre : 38 mm
- Hauteur Totale : 83mm
- Chargement : 30 gr Comp A5 pour M46, 31 gr Comp A5 pour de M42
- Poids Total : 208 gr
- Fusée : propre
- Utilisation : obus d'artillerie 155 mm M483

7.FONCTIONNEMENT

Au largage, la tresse stabilise la grenade à la sortie du vecteur et sous l'effet de la force centrifuge de celui-ci la munition tourne, ce qui a pour effet de dévisser le percuteur de son logement vers le haut. Le tiroir porte-détonateur est libéré, sous l'action de son ressort et réalise ainsi l'alignement pyrotechnique. A l'impact, le percuteur va frapper l'amorce détonateur, qui initie le renforçateur qui fait exploser la charge explosive.

Form E Status and progress of programs for conversion or de-commissioning of production facilities

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
 (d) The status and progress of programmes for the conversion or decommissioning of production facilities for cluster munitions.

State [Party]: **BELGIUM** reporting for time period **INITIAL REPORT**

Name and location of production facility	Indicate if to "convert" or "decommission"	Status (indicate if "in process" or "completed") and progress of the programme	Supplementary information (e.g. plans and timetable for completion)
N/A			

Form F Contaminated areas and clearance

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
 h) To the extent possible, the size and location of all cluster munition contaminated areas under its jurisdiction or control, to include as much detail as possible regarding the type and quantity of each type of cluster munition remnant in each such area and when they were used."
 i) The status and progress of programmes for the clearance and destruction of all types and quantities of cluster munition remnants cleared and destroyed in accordance with Article 4 of this Convention, to include the size and location of the cluster munition contaminated area cleared and a breakdown to the quantity of each type of cluster munition remnant cleared and destroyed."

State [Party]: BELGIUM reporting for time period : INITIAL REPORT

1. Size and location of cluster munition contaminated area*

Location **	Size of contaminated area (m ²)	Cluster munition remnants		Estimated or known date of contamination	Method used to estimate suspected area	Supplementary information
		Type	Estimated quantity			
N/A						
Total:		Total:				

* If necessary, a separate table for each area may be provided

** Location can be defined by listing the province/district/village where contaminated areas are located as well as (where possible) map references and grid coordinates sufficient to define the contaminated area.

2. Land release

Provide information on the release of land previously suspected to contain cluster munition remnants by methods other than clearance.

Location #	Size of area (m ²)	Date of release	Method of release (technical or non-technical survey)
N/A			

3. Status and progress of programmes for the clearance for cluster munitions remnants

Location **	Size of cleared area (m ²)	Status of clearance programme (if possible, including plans, time table and completion date)	Cluster munition remnants cleared		Clearance Method	Standards applied	
			Type	Quantity		Safety Standards	Environmental Standards
N/A							
Total:			Total:				

* If necessary, a separate table for each area may be provided.

** Location can be defined by listing the province/district/village where contaminated areas are located as well as (where possible) map references and grid coordinates sufficient to define the contaminated area. Where possible, refer to the corresponding contaminated area described in [Form F, table 1].

Supplementary information

[narrative]

4. Status and progress of programme(s) for the destruction of cluster munition remnants(*) ()**

Location	Status of destruction programme (if possible, including plans, time table and completion date)	Cluster munition remnants		Destruction Method	Standards applied	
		Type	Quantity		Safety Standards	Environmental Standards
N/A						
		Total:				

* If necessary, a separate table for each area may be provided.

** This table is only for use for those cluster munitions remnants that were not destroyed during a clearance programme (for example cluster munition remnants cleared and subsequently destroyed elsewhere or abandoned cluster munitions).

Form G Measures to provide warning to the population and risk education

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

j) The measures taken to provide risk reduction education and, in particular, an immediate and effective warning to civilians living in cluster munition contaminated areas under its jurisdiction or control."

State [Party]: **BELGIUM** reporting for time period : **INITIAL REPORT**

1. Measures taken to provide risk reduction education

During missions abroad in affected regions and in some occasions, a "Mine Risk Education Program" in favor of the local population (children) is conducted by the Belgian military (e.g. Libanon) and education flyers are distributed.

2. Measures taken for effective warning of the population

Although Belgian is not an affected state, the Belgian military have instructions in the field of warning of the population during operations abroad in affected regions.

Keeping in mind that the first responsibility to inform the civilian population and to prevent it from running at risk remains in the hand of the civilian authorities, Belgian Defense will transmit as much possible information to the local authorities on identified contaminated areas. In most of the time, the Belgian detachment will transmit the information to the local "Mine Action Center", if deployed.

Form H **Victim assistance: status and progress of implementation of the obligations under Article 5**

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

(k) The status and progress of implementation of its obligations under Article 5 of this Convention to adequately provide age- and gender- sensitive assistance, including medical care, rehabilitation and psychological support, as well as provide for social and economic inclusion of cluster munition victims and to collect reliable relevant data with respect to cluster munition victims."

State [Party]: BELGIUM reporting for time period : INITIAL REPORT

1. National focal point and coordination mechanism for the implementation of Article 5 (specify name and contact information of government body responsible)

N/A

2. Data collection and assessment of the needs of cluster munitions victims (please indicate gender and age of survivors as well as information on affected families and communities)

N/A

3. Development and implementation of national laws and policies for implementation of Article 5

N/A]

4. National plan and budget, including timeframes to carry out these activities

N/A

Note : If necessary, plans/budgets may be provides separately.

5. Efforts to closely consult with and actively involve cluster munition victims and their representative organisations in victim assistance planning and implementation

N/A

6. Assistance services (including medical care, physical rehabilitation, psychological support, and social and economic inclusion).

Type of service (medical care, physical rehabilitation, psychological support, social and economic inclusion)	Implementing agency	Description of service (progress made, activities, number of persons assisted, time period)

7. Steps taken to mobilize national and international resources

N/A

8. Needs for international assistance and cooperation

Activity	Description	Time period	Need
N/A			

9. Efforts undertaken to raise awareness of the rights of cluster munition victims and persons with other disabilities

--

Form I National resources and international cooperation and assistance

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

(m) The amount of national resources, including financial, material or in kind, allocated to the implementation of Articles 3, 4 and 5 of this Convention; and

(n) The amounts, types and destinations of international cooperation and assistance provided under Article 6 of this Convention.

State [Party]: BELGIUM reporting for time period: INITIAL REPORT

1. National resources allocated

Activity	Sector (stockpile destruction, clearance, risk education, victim assistance, advocacy)	Amount of national resources (list currency)	Type of resources (e.g. financial, material, in kind)

2. International cooperation and assistance provided

Destination	Sector (stockpile destruction, clearance, risk education, victim assistance, advocacy)	Amount (list currency)	Type of cooperation or assistance (financial, material or in kind)	Details (including date allocated, intermediary destinations such as trust funds, project details, timeframes)
LEBANON	Clearance	3.000.000 € (estimated in 2010)	In kind	Demining capacity of : <ul style="list-style-type: none"> - 1 EOD/IEDD team (3 pers) - 1 demining platoon (35 persons) In the framework of UNIFIL
AFGHANISTAN	Clearance	723.000 € (2010)	In kind	A team of 8 EOD operators is active at the Provincial Reconstruction Team in KUNDUZ.
AFGHANISTAN	Capacity building of the national Afghan demining Organization for Mine Clearance & Afghan Rehabilitation (OMAR)	€ 215.000	Financial	10-11-2009 6 months Reinforcement of existing capacities. The project focuses on security, quality and efficiency of the demining operations. "Training curriculums" will be developed.
AFGHANISTAN	Clearance	1.000.000 € 285.000 € (2009)	Financial	26-09-10 22-07-08 4 years and 4 months Humanitarian mine and UXO's clearance in Northern Afghanistan

LEBANON	Clearance	1.000.000 €	Financial	18/08/2010 1 year – start: 1/11/2010 Demining action based on the priorities of the Libanon Landmine Impact Survey fixing risk area related to social and economical impact of contaminated inhabited zones
CAMBODJA	Clearance for community development	550.360 €	Financial	10-11-2009 24 months To reduce risks caused by landmines and unexploded ordinance with a view to allow agricultural activities and enhance the socio-economical situation of the small farmers.
CAMBODJA	Victim Assistance	500.000 €	Financial	22-02-2010 24 months Institutional sustainability of the physical rehabilitation centers of Siem Riep and Takeo
COLOMBIA	Victim Assistance	550.000€	Financial	17-11-2010 48 months; start: 1/9/10 Renforcement Institutionnel des capacités nationales pour la prise en charge et l'orientation des victimes civiles en Colombie

COLOMBIA	Risk Education	300.000 €	Financial	7-11-2010 12months (start: 1/5/10) Reducing the risks posed to vulnerable communities by Conventional Weapons (CW) contamination
COLOMBIA	Risk Education	208.659 €	Financial	21-10-2009 6 months Community-based risk education in Antioquia
IRAQ	Clearance	500.000 €	Financial	28-05-2010 24 months Humanitarian Mine Action Northern and Central Iraq
LAOS	UXO' s Clearance	100.000 €	Financial	18-08-2010 12 moths Support to Uxo's Laos geographicalsurvey in Saravane and Champasak provinces
LAOS	Advocacy / Victim Assistance	50.000 €	Financial	12-12-2010 UNDP Trust fund – 1MSP Vientane
DR CONGO	Risk Education	500.000 €	Financial	18-12-2009 18 months Prévention des risques liés à la présence des mines et UXO dans les provinces Orientale, du Maniema et de l'équateur

Multilateral projects	Advocacy / Victim Assistance	100.000 €	Financial	14-07-2009 18 months up to 31 December 2010 Special attention will be dedicated to the testimony of the ban advocates and the local organization for victim assistance.
Multilateral projects	Victim Assistance	2.000.000 € (2010) 2.000.000 € (2009)	Financial	Multiannual program Yearly Humanitarian aid - ICRC voluntary contribution to landmine action
Multilateral projects	Advocacy / Victim Assistance	300.000 €	Financial	14-07-2009 36 months Stopping further casualties from antipersonal landmines and cluster munitions and assisting survivors; campaign focused on victim assistance; capacity building of local partners

3. International assistance and cooperation needed

a. For the implementation of Article 3 : Stockpile destruction

Activity	Description	Time period	Need
N/A			

b. For the implementation of **Article 4** : Clearance and risk education

Activity	Description	Time period	Need
N/A			

c. For the implementation of **Article 5** : Victim assistance

Activity	Description	Time period	Need
N/A			

4. Assistance provided by State Parties to another State for cluster munitions used/abandoned prior to entry into force, as outlined in Article 4 paragraph 4 –

State Parties that have used our abandoned cluster munitions which have become cluster munition remnants located in areas under jurisdiction or under control of another State Party are **STRONGLY ENCOURAGED** to provide assistance to the latter State Party to facilitate the marking, clearance and destruction of such cluster munition remnants.

N/A

Form J: Other relevant matters

Remark: States Parties may use this form to report voluntarily on other relevant matters, including matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7.

State [Party]: _____ **BELGIUM** _____ reporting for time period : **INITIAL REPORT**

Narrative / reference to other reports

In order to promote the universalisation of the Convention, Japan has been assisted by a specific country designated as contact point for a region in the world. Belgium is the contact point for European countries and international organisation to which it is a member state.

- When Belgium ratified the Convention on 22 December 2009, instructions have been given to all Belgian diplomatic posts by the Minister of Foreign affairs in order to inform their government of accreditation by Note Verbale about this fact with the request to encourage the said governments to sign and/or ratify in a timely manner the CCM. Being the 26th country to ratify, Belgium has contributed to the entry into force of the Convention.
- NATO : at the informal ministerial meeting in Istanbul on 4-5 February 2010, the Belgian Minister of Defence discussed the signature of the Oslo Convention with his Colleagues.
- OSCE (Vienna) : Belgium has requested to attach a declaration to the journal of the day of the meeting of the Forum for Security Co-operation (FSC) of 22 January 2010. At the completion of the destruction of the Belgian army's stockpile of cluster munitions, a second declaration has been made in the FSC on 22 September 2010.
- Council of Europe (Strasbourg) : based on a Belgian proposal, the Committee of the Ministers deputies (Ambassadors) has adopted on 7 July 2010 a declaration in response to a resolution of the Parliamentary Assembly 1871 (2009) of the Council of Europe.
- At each session of the European Union Council working groups on Disarmament (CODUN), Belgium, among other member states, insists to put the CCM as an item on the agenda.
- Specific bilateral demarches, sometime in cooperation with other interested embassies, were carried on and Belgian Ambassadors participated to regional seminars.

Note : Form J can be used to report, on a **VOLUNTARY** basis, on the efforts to encourage states not parties to join the Convention on Cluster Munitions, and to notify such states of convention obligations as outlined in Article 21
