FORM C: Legislation

Paragraph 5 of the Decision on Compliance:

"The High Contracting Parties will provide information [...] on:

(c) Legislation related to the Convention and its annexed Protocols;"

High Contracting Party: JAPAN

Reporting period: from 01/10/2009 to 30/08/2010 [dd/mm/yyyy] [dd/mm/yyyy]

☑ additional information of legislation related to Amended Protocol II is contained in the National Annual Report provided pursuant to paragraph 4(d) of Article 13 of Amended Protocol II for the year 2010.

☐ additional information on legislation related to Protocol V is contained in the National Report provided pursuant to paragraph 2 (b) of Article 10 of Protocol V for the year: 

Legislation, including the status and content of national legislation to prevent and suppress violations of amended Protocol II:

- Paragraph 2, Article 88 of the Self-Defense Forces Law provides that 'in using force when the SDF is ordered to be in operation, international statute and/or customs will be adhered to, when so required, and the limit as legitimately adjudged necessary for meeting the prevailing situation will not be exceeded.'
- Ministry of Economy, Trade and Industry controls Japan’s arms export based on the Foreign Exchange and Foreign Trade Act and the Three Principles on Arms Exports as the policy guideline (see the reference below). The exports of arms and equipment for arms production listed in the Export Trade Control Order (see the attached Annex 1) require export licenses to all destinations.
- Law on the Prohibition of the Manufacture of Anti-personnel Mines and the Regulation of the Possession of Anti-personnel Mines (See the attached Annex 2).

Any other relevant information, including the regulations and policies (other than national legislation) adopted to implement the CCW's obligations and ensure compliance with its Protocols:

[The Three Principles on Arms Exports]
The Government of Japan has been dealing carefully with arms exports in accordance with the policy guideline named the Three Principles on Arms Exports (hereinafter referred to as "the Three Principles") in order to avoid any possible aggravation of international conflicts. Under the Three principles, arms exports to the following countries or regions shall not be permitted:
1. communist bloc countries;
2. countries subject to arms exports embargo under the United Nations Security Council's resolutions; and

CONVENTION ON CERTAIN CONVENTIONAL WEAPONS
(3) countries involved in or likely to be involved in international conflicts. The Three Principles have been the basic policy for Japan's arms exports since they were declared in the 1967 Diet session. Subsequently, in February 1976, the Government of Japan announced the collateral policy guideline according to which arms exports to other areas not included in the Three Principles will also be restrained, in conformity with Japan's position as a peaceful nation. In other words, the collateral policy guideline declared that the Government of Japan shall not promote arms exports, regardless of the destinations.
FORM D: Technical cooperation and assistance

Paragraph 5 of the Decision on Compliance:

"The High Contracting Parties will provide information [...] on:

(d) Measures taken on technical co-operation and assistance;"

High Contracting Party: JAPAN

Report period: from 01/10/2009 to 30/08/2010

☑ additional information of measures taken on international technical information exchange, on international cooperation on mine clearance, and on technical cooperation and assistance is contained in the National Annual Report provided in accordance with paragraph 4(e) of Article 13 of Amended Protocol II for the year: 2010

☐ additional information on measures taken on international technical cooperation and assistance is contained in the National Report provided pursuant to paragraph 2 (b) of Article 10 of Protocol V for the year:

International technical co-operation, including relevant experiences in seeking or providing technical assistance and cooperation:

Japan has been providing assistance in mine action including humanitarian demining, victim assistance and mine risk education through the UN agencies, Japanese and international non-governmental organizations or on a bilateral basis.

International technical assistance:

Japan has been actively supporting research and development on new mine clearance technologies to enhance efficiency and safety of demining activities, in cooperation with Japanese manufacturers and laboratories, while emphasizing capacity building for the end-users of the new technologies.

Any other relevant information:
See the attached Annex for Japan's co-operation and assistance in mine clearance for time period from August 1, 2009 to July 31, 2010.
No amendment was made to the Annexed list 1 of the Export Control Order during the reported period. However, translational modifications were made to its Annex 1.

Annex 2 (for Form C)

Law on the Prohibition of the Manufacture of Anti-personnel Mines and the Regulation of the Possession of Anti-personnel Mines

(Abstract)

1. Purpose (Article 1)

The objective of this law is to enable the government to take necessary measures in order to secure appropriate enforcement of the "Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction".

2. Definitions (Article 2)

"Anti-personnel mine" in the Law is defined as a mine designed to be exploded by the presence, proximity or contact of a person.

3. Prohibition of the Manufacture of Anti-personnel Mines (Article 3)

No person shall manufacture anti-personnel mines.

4. Regulation of the Possession of Anti-personnel Mines (Article 4 & 5)

No person shall possess anti-personnel mines except for the purposes which are permitted under the Convention.

A person who intends to possess anti-personnel mines shall obtain a permit from the Ministry of Economy, Trade and Industry.

5. Notification of the Possession or Destruction of Anti-personnel Mines (Article 11 & 14)

A permitted possessor of anti-personnel mines shall notify the Minister of Economy, Trade and Industry about the detail of anti-personnel mines under his possession according to the regulation provided for by the Ministry of Economy, Trade and Industry.

A permitted possessor of anti-personnel mines shall notify the Minister of Economy, Trade and Industry in case he intends to destruct or handed over anti-personnel mines under his possession.

6. Keeping a Ledger (Article 15)

A permitted possessor of anti-personnel mines shall keep and update a ledger which contains information about types and quantity of the anti-personnel mines under his possession.
7. Fact-finding Mission appointed by the Secretary General of the United Nations (Article 16)

Members of a fact-finding mission shall be entitled to enter into relevant facilities, inspect documents and other materials and ask questions to persons concerned within the mandate provided for in the Convention.

8. Collection of Reports and on the Spot Inspection (Article 17 & 18)

The Minister of Economy, Trade and Industry requires a permitted possessor to report any detail of his activities related to the Law.

The Minister of Economy, Trade and Industry may, to the extent necessary for the implementation of this Law, have his staff member enter into relevant facilities, inspect documents and other materials and ask questions to persons concerned.

9. Penalties (Article 22 to 28)

10. Entry into Force

This Law enters into force on the date of the entry into force of the Convention for Japan.
