Form F: Other relevant matters: [X] changed [ ] unchanged (last reporting: 2008)

Form G: Information to the UN-database on mine clearance: [X] changed [ ] unchanged (last reporting: 2008)
PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF MINES, BOOBY-TRAPS
AND OTHER DEVICES AS AMENDED ON 3 MAY 1996
ANNEXED TO THE CONVENTION ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF
CERTAIN CONVENTIONAL WEAPONS WHICH MAY BE DEEMED TO BE EXCESSIVELY INJURIOUS
OR TO HAVE INiscriminate EFFECTS
(PROTOCOL II AS AMENDED ON 3 MAY 1996)

Provisional Reporting Formats for Article 13 para 4 and Article 11 para 2.

NAME OF HIGH CONTRACTING PARTY

The Kingdom of Norway

DATE OF SUBMISSION

15. AUGUST 2009

NATIONAL POINT OF CONTACT

The Royal Norwegian Ministry of Foreign Affairs, Section for
Disarmament, None Proliferation & Export Control Ph +47 22 24 33 20, fax
+47 22 24 34 19, E-mail s-nedr@mfa.no
(Organization, telephones, fax, email)
Form A \hspace{1cm} Dissemination of information

Article 13 / 4 / a \hspace{1cm} "The High Contracting Parties shall provide annual reports to the Depositary on:

(a) dissemination of information on this Protocol to their armed forces and to the civilian population."

Remark:

<table>
<thead>
<tr>
<th>High Contracting Party</th>
<th>The Kingdom of Norway</th>
<th>Reporting for time period from 30. Aug 08 until 30. Aug 09</th>
</tr>
</thead>
</table>

Information to the armed forces
Core training includes training in mine-clearing and mine-laying to enable the individual soldier to survive during the most common situations of land-mine warfare. Officer- and NCO-education includes the legal aspect of the Amended Protocol II. All military personnel participating in Peace Support Operations (PSO) are obliged to participate in a national Mine Awareness Course before deployment.

Information to the civilian population
NORWAY has no land-mine contaminated areas. WW II UXOs detected by civilians are reported to local police authorities. This is a well established practice since WW II. The police subsequently inform the Armed Forces for disposal.
Form B

Mine clearance and rehabilitation programmes

**Article 13 / 4 / b**

"The High Contracting Parties shall provide annual reports to the Depositary on:

(b) mine clearance and rehabilitation programmes:"

**Remark:**

<th>The Kingdom of Norway</th>
<th>Reporting for time period from 30. Aug 08 until 30. Aug 09</th>
</tr>
</thead>
</table>

**Mine clearance programmes and rehabilitation programmes**

Ref Form A, block 2, there is no need for mine clearance programmes within Norwegian territory. Norwegian Armed Forces units and contingents deployed in PSO in ISAF, including military observers in relevant UN missions, run or participate in programmes within their respective areas of responsibility.

Norway contributed approx. 33.5 million USD to clearance of landmines and other explosive remnants of war, victim assistance and other mine action activities in 2008 (OECD DAC sector 15250 Land mine clearance).

Norwegian funding is channelled mostly through humanitarian organisations including NGOs, the ICRC and the Special Fund for Disabled, the UN system and through bilateral co-operation with affected states. Laos, Cambodia, Colombia, Afghanistan, Jordan, Iraq, Mozambique, Angola, Bosnia & Herzegovina, Croatia, Nicaragua, Ecuador, Peru, Somalia, Sri Lanka, Sudan, Ethiopia, Guinea Bissau and Lebanon are among the countries where Norway supports ongoing mine/UXO projects.

Norwegian NGOs have on-going programmes for mine action in a number of countries including Angola, Bosnia & Herzegovina, Croatia, Cambodia, Colombia, Ethiopia, Iraq, Laos, Lebanon, Jordan and Sudan.

**Rehabilitation programmes**

Ref block 1 above.
**Form C**

**Technical requirements and relevant information**

**Article 13 / 4 / c**

"The High Contracting Parties shall provide annual reports to the Depositary on:

(c) steps taken to meet technical requirements of this Protocol and any other relevant information pertaining thereto:"

**Remark:**

| High Contracting Party | The Kingdom of Norway | Reporting for time period from 30. Aug 08 until 30. Aug 09 |

**Technical requirements**

All landmines in the Norwegian inventory provide a response signal equivalent to the signal from 8 grammes or more of iron in a single coherent mass. Thus, they are all detectable with detection equipment commercially available. All remotely delivered mines are equipped with self-destruction / self-neutralisation and self-deactivation mechanisms.

**Any other relevant information**

The Norwegian Army in co-operation with the Norwegian Defence Research Establishment is looking into possible development of sensor systems in order to improve the technological mine detection capacities.
Form D  Legislation

Article 13 / 4 / d  "The High Contracting Parties shall provide annual reports to the Depositary on:
(d) legislation related to this Protocol;"

Remark:

High Contracting Party  The Kingdom of Norway  Reporting for time period from 30. Aug 08 until 30. Aug 09

Legislation
All facets of the Protocol are covered by the general Norwegian Legislation.
All military Rules of Engagement and the National Precautionary System are within the provisions of CCW -related legislation.
Form E

International technical information exchange, co-operation on mine clearance, technical co-operation and assistance.

Article 13 / 4 / e

"The High Contracting Parties shall provide annual reports to the Depositary on:

(e) measures taken on international technical information exchange, on international co-operation on mine clearance, and on technical co-operation and assistance:"

**Remark:**
