Form D  Technical co-operation and assistance

Paragraph 5 of the Decision on Compliance:

"The High Contracting Parties will provide information […] on:

(d) Measures taken on technical co-operation and assistance;"

High Contracting Party: Republic of Lithuania

International co-operation and assistance:

Although Lithuania has emerged as a donor state only around 2004, a substantial part of our international assistance was channelled to projects related to international mine action, including activities related to reduction of harm caused by UXOs and ERWs.

Lithuanian contribution to international disarmament projects in 2012:

FORM E: Other relevant matters

Paragraph 5 of the Decision on Compliance:

"The High Contracting Parties will provide information [...] on:

(e) Other relevant matters."

High Contracting Party: Republic of Lithuania

National efforts to reduce ERW contamination

As Lithuania is a mine free country no specific mine clearance programmes are required. However, there is a certain degree of contamination by explosive remnants of war (ERW) resulted from the First and the Second World Wars as well as pollution of former Soviet military bases. Engineering battalion of the Lithuanian Armed Forces is tasked to clear and destroy the explosives.

Lithuania started marking and ERW clearance activities in summer 2008. Till the end of 2012 Lithuanian Armed Forces EOD platoon checked and cleaned over 250 ha of polluted territories and found over 11 000 pieces of different explosive ordnance (mortar, anti-vehicle and anti-personnel mines, shells, grenades, aviation bombs, ammunition etc.).

Lithuanian lead Provincial Reconstruction Team (PRT) in province of Ghor (Afghanistan) is part of the NATO International Security Assistance Force (ISAF) operation in Afghanistan. During the period of 2006-2012 Lithuanian Armed Forces EOD team in PRT destroyed over 26 900 pieces of different explosive ordnance (including IEDs).
