MINE CLEARANCE PROGRAMMES:
In 2014 alone, UK mine action work in developing countries resulted in the removal of over 6,378 landmines and ERW; released 2,294,129 square meters of land so that people were able to return to their everyday lives, and reached 13,321 people through mine risk education activities. The UK is also working to strengthen the ability of national authorities to manage their own landmine and ERW programmes.

In 2014, contracts were also agreed for the fourth phase of demining/land release operations in the Falkland Islands under the Anti-Personnel Mine Ban Convention. These contracts agreed that a minimum of the following Suspect Hazardous Areas would be cleared by April 2016:

54, 55, 56, 57, 58, 59, 60, 49, 50A, 50B, 66, 83, 51, 22, 24, 26, 27, 52, 53, 86, 63A, 63B, 110. The non-minefield area behind the Stanley Common fence to the west of the Eliza Cove road is also to be cleared.

Preparation and initial mobilisation for implementing this phase took place in the last months of 2014.

REHABILITATION PROGRAMMES:
The UK runs health and social development programmes with targeted elements for people with disabilities including those injured by landmines.
