Article 13, paragraph 4 (e) “The High Contracting Parties shall provide annual reports to the Depositary […] on […]:

(e) measures taken on international technical information exchange, on international cooperation on mine clearance, and on technical cooperation and assistance;”

 Remark: 

High Contracting Party: SWEDEN

Reporting for time period from: 01/01/2019 to: 31/12/2019

INTERNATIONAL TECHNICAL INFORMATION EXCHANGE:

The Swedish Armed Forces (SAF) are involved in the work on standardizing mine action conducted by NATO through Partnership for Peace. At the Nordic level, there are networks between the Defence Research Establishments. The Swedish EOD and Demining Centre (SWEDEC) is a Swedish Centre of Excellence for mine clearance and explosive ordnance disposal, as well as humanitarian demining within the SAF. SWEDEC is responsible for active participation in international efforts and information exchange.

INTERNATIONAL COOPERATION ON MINE CLEARANCE:

During the period covered by this report (2019), Sweden contributed at least SEK 82 290 000 to mine action. Most of this was channelled through the Swedish International Development Cooperation Agency (Sida). For details, see attached Table 1.

The Swedish EOD and Demining Centre -SWEDEC- is Sweden’s centre of excellence in the field of explosive ordnance disposal and mine clearance. SWEDEC is focused on education and training of individual officers and military units on Conventional Munitions Disposal (CMD) and Improvised Explosive Device Disposal (IEDD) as well as related research and development.
Sweden is the lead nation in the user group for EOD IS where SWEDEC offers an important contribution.

SWEDEC works in partnership with international organizations such as The NATO Science and Technology Organisation (NATO-STO) and Geneva International Centre for Humanitarian Demining-GICHD.

TECHNICAL COOPERATION AND ASSISTANCE:
