PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF MINES, BOOBY-TRAPS AND OTHER DEVICES AS AMENDED ON 3 MAY 1996
ANNEXED TO THE CONVENTION ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF CERTAIN CONVENTIONAL WEAPONS WHICH MAY BE DEEMED TO BE EXCESSIVELY INJURIOUS OR TO HAVE INDISCRIMINATE EFFECTS
(PROTOCOL II AS AMENDED ON 3 MAY 1996)

Provisional Reporting Formats for Article 13 para 2 and Article 11 para 2.

NAME OF HIGH CONTRACTING PARTY  BELGIUM
DATE OF SUBMISSION  01.10.2011
NATIONAL POINT(S) OF CONTACT  Non-Proliferation and Disarmament Department of the Federal Public Service Foreign Affairs, Foreign Trade and Development Co-operation
Tel. +32.2.501.88.87; Fax +32.2.501.38.22 e-mail: henry.vantieghem@diplobel.fed.be
Form A  Dissemination of information

Article 13 / 4 / a  “The High Contracting Parties shall provide annual reports to the Depositary ... on:

(a) dissemination of information on this Protocol to their armed forces and to the civilian population;”

Remark:

Information about the Armed Forces

a. General Information:
   Officers assigned as “Advisers in the Law of Armed Conflict” are available in each unit (till battalion or independent company level) to advise military commanders on the application of the Law of Armed Conflict. The education programme of these advisers encloses among other subjects a general information about the (amended) Protocol II.

b. Specific Information:
   Combat engineers and EOD personnel involved in mining activities are educated and trained in all matters related to the Belgian doctrine in accordance with the STANAG 2036 Land mines procedures, 2389 Minimum standards of proficiency for trained explosive ordnance disposal personnel, 2485 Countermine operations in land warfare and this protocol.
   These documents are translated into two Belgian doctrinal documents:
   - ACOT-TTP-ENGMFD-LECQ-030 Procédure en matière de pose, marquage, repérage et compte-rendu des champs de mines (Draft),
   - ACOT-TTP-ENGMFD-LECQ-030 Déminage en Ops (Draft)
   Mine awareness is also given to all soldiers during their basic military education. On a yearly base, soldiers receive a refreshment training on mine awareness

Information to the civilian population

Form B  Mine clearance and rehabilitation programs

**Legislation**

- Law of 20 March 2007 prohibiting the financing of the production, use and possession of antipersonnel mines and submunitions
- Law of 08 January 2004 approving the modification of Art 1 of the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons which may be Deemed to be Excessively Injurious or Have Indiscriminate Effects.
- Law of 30 March 2000 on the definitive Prohibition of the Antipersonnel Mines, which simplifies the existing procedure on the total prohibition of Antipersonnel Mines.
- Law of 24 June 1996 amending the Law of 3 January 1933 on Arms production and Trade, on the Carrying of Weapons and on Ammunition Trade, with the View to Prohibit the Belgian State and Public services from Storing Anti-personnel mines.
Form E  International technical information exchange, cooperation on mine clearance, technical cooperation and assistance

Article 13 / 4 / e  “The High Contracting Parties shall provide annual reports to the Depositary ... on:

(e) Measures taken on international technical information exchange, on international cooperation on mine clearance, and on technical cooperation and assistance;

Remark:

High Contracting Party  BELGIUM  reporting for time period from  01.01.2010  to  31.12.2010

International technical information exchange

- Since May 2004, Belgium participates to the European Research Grouping Arrangement n°2, with France, Luxembourg, the United-Kingdom and Germany, relating to the European Co-operation for Ammunition Destruction.
- Since 2003 a complete handbook on EOD technical information was produced, translated in KHMER and handed over to the CMAC (Cambodia), Belgium guarantees technical information support on request.
- On a regular basis, with the participation of 1 or 2 demining skilled personnel, Belgium attends meetings relating to Humanitarian Mine Action and organized under the umbrella of :
  - CEN work programs
  - NATO working group EOD
  - GICHD Review Board for IMAS
  - EDA working group
  and assumes a liaison role between those organizations.
- Belgium participates :
  - at Board of Directors (BoD) level to the International Test and Evaluation Program for humanitarian demining (ITEP) and by that means takes part in the decision and policy process of the ITEP-organisation
  - annually, through its Department of Defence, by financing the working cost of the ITEP-secretariat, approximately at 60.000 Euro for this year.
## International cooperation on mine clearance

### 1. Introduction

The projects listed here are based on financial contributions and the provisions of services. Note that the Belgian military experts working for SEDEE (Service for removal and destruction of explosive devices) have NATO diplomas and qualifications:
- EOD (Explosive Ordnance Disposal)
- IEDD (Improvised Explosive Device Disposal)

The staff is qualified in mine clearance and in the handling of UXO.

#### B. Middle East :

##### a. LEBANON :

In the framework of the UNIFIL mission -South, Belgium has a demining/EOD capacity available composed of:
- 01 demining platoon. This platoon is composed of 43 persons.
- 01 Liaison Officer in BEIRUT in support of the UNIFIL-staff.

This personnel rotates every four months.

Program Description: In the framework of the UNIFIL-South build-up, Belgium deployed 1 EOD/demining platoon (43 persons) for the duration of 2010 devoted to clearing operations in the surroundings of TIBNIN/ AT TIRI.

Program Recipient: LEBANON

Funding Source (Government Ministry or Department): Ministry of Defence

Program Recipient: LEBANON

UNDP – support to Libanon Mine Action Center
Activity Type: Clearance UXO - Demining action based on the priorities of the Libanon Landmine Impact Survey fixing high risk area related to social and economical impact of contaminated inhabited zones in South Libanon
1 year – start: 1/12/2010
Funding amount: 1,000,000 Euro
Funding Source: Ministry of Foreign Affairs - Department of cooperation development

Program Recipient: IRAQ
Activity Type: UXO’s Clearance action in general - Humanitarian Mine Action Northern and Central Iraq
24 months (28-05-2010)
Funding amount: 500,000 Euro
Funding Source: Ministry of Foreign Affairs

Program Recipient: JORDAN
Activity Type: Mine clearance - Jordan Valley sampling and verification project
12 months
Funding amount: 306,972 Euro
Funding Source: Ministry of Foreign Affairs

C. Asia :

a. CAMBODIA :
Since 2003 a complete handbook on EOD technical information was produced, translated in KHMER and handed over to the CMAC (Cambodia), Belgium guarantees technical information support on request.

b. AFGHANISTAN :
Since July 2005, Belgium deploys permanently 9 EOD operators to the Provincial reconstruction Team (PRT) KUNDUZ. Since 2010, this capacity is reduced to 5 EOD operators and 2 EOR operators. The rotation is based on a four months period.
Program Recipient: AFGHANISTAN ISAF
Funding amount (original currency): 1 012 200 Euro
Implementing Agency: Service d'enlèvement des engins explosifs (SEDEE-DOVO)
Funding Source (Government Ministry or Department): Departement of Defence
Contribution Type (Monetary or In-Kind): in-kind
Activity Type (coordination, survey, marking, clearance, destruction, training, MRE, victim assistance, unspecified, etc.): detection, neutralisation and destruction of ERW (mines included) and the detection, neutralisation and destruction of improvised explosive device (IED).
Program Description: In 2010, THREE (four months) rotations composed of 5 EOD/IEDDD operators and 2 EOR operator supported the German leaded Provincial Reconstruction Team KUNDUZ (PRT KUNDUZ)

Program Recipient: AFGHANISTAN

3. **Research and Development:**
Research and development activities are conducted as well at the national as at the international level.

a. National level:
   - The research project on the use of bio-sensors (rats) in humanitarian de-mining operations, funded by the Belgian State Secretariat for Development Aid and conducted by the NGO APOPO and the RUCA (http://www.apopo.org), is highlighting very promising solutions in the close-in detection of AP mines. The rats proved to be more powerful than dogs in trials organized in Tanzania. This project started in 1997 is still ongoing. A validation phase in Mozambique is still underway. Support to the APOPO-project: field tests in Mozambique: 230,000 EUR (budget of the Flemish community - Belgium)
   - The PARADIS project (A prototype for assisting rational activities in humanitarian de-mining using images from satellites http://www.sic.rma.ac.be/Projects/Paradis/) started in 1998. Initially, this project was funded by the Belgian federal Office for scientific, Technical and Cultural Affairs and the Belgian Ministry of Defense, and conducted by the Royal Military Academy (RMA) with - in the beginning - the participation of the department of Geography (IGEAT) of the Free university of Brussels (ULB). This prototype is highlighting very interesting solutions for the management of humanitarian de-mining operations using satellite images, maps, context information and the IMSMA database and involves key actors including end-users, image analysts and scientists. Now this Project is only funded by the Belgian Ministry of Defense. Since 2004, it is in a phase of optimizing the developed solutions and to this end has undergone different tests:
     - in October 2005: with the help of NGO APOPO, tests have been performed in Mozambique in order to analyze the possibility to integrate the needs of APOPO in the system,
     - since November 2005: trials have been conducted in Afghanistan by the Belgian EOD-team in close (internet) collaboration with the SIC laboratory of the RMA,
     - in June 2006, further validation tests for some modules have taken place in Belgium in collaboration with EOD personnel. These amount about 100,000 Euro.
     - in 2007, the PARADIS system has been finalized and presented to the end-users at SEDEE-DOVO. Presentations were targeting different levels of users (field officers, planners).

Moreover many functions in the system have been generalized so as to fit the needs of a broader spectrum of users. Maintenance matters have also been evaluated inside Belgian Defense. Data exchange with new standard systems such as EOD IS have been investigated. At the end of the project (Dec 2007) the system was made available to SEDEE-DOVO. Moreover a last field test was conducted with APOPO in Mozambique in order to establish an exhaustive list of end-users requirements. This for an amount of about 80,000 Euro.

In 2008 (Jan to Sep), APOPO has been funding (about 25,000 Euro) the finalization of the adaptation of the system to its specific needs based on the requirements identified in 2007. The system was then successfully installed at APOPO's premises.

b. International level: (voir aussi les autres acteurs impliqués)
   - The RMA is supporting the International Test and Evaluation Program (ITEP) by its participation to the executive Committee and to the
different working groups, as well as by financing the ITEP secretariat. From 1st September 2004, the ITEP secretariat (http://www.itep.ws) is installed in the premises of the Royal Military Academy in Brussels, Belgium. The MOU with ITEP for the hosting of the secretariat has come to an end on the 17th of July 2010 without being renewed.

- The RMA is chairing the CEN (Centre Européen de Normalisation) initiative to define a new standard on the soil characterisation for electromagnetic mine detection sensors. This project is funded by the European Commission and will last two years. The personnel costs are funded by the Belgian Defence in the scope of the BEMAT project (see above).

- The VUB is involved in the STREAM project (http://stream.etro.vub.ac.be/home.html), funded by the European Commission, on the development of (1) products, and (2) procedures for end-to-end technological platforms and tools for survey and decision support in humanitarian crisis: humanitarian demining and locations of refugee settlements. This project started in 2005 and will last 4 years.

- Two Belgian deminers and a scientist from the Royal Military Academy participated in the tests of the dual sensor detectors organized by Germany under ITEP umbrella (Oberjettenberg, 21 Sep 2009 – 16 Oct 2009).
Form F  Other relevant matters

Article 13 / 4 / f “The High Contracting Parties shall provide annual reports to the Depositary ... on:

(f) other relevant matters.

Remark:

High Contracting Party BELGIUM reporting for time period from 01.01.2010 to 31.12.2010

Other relevant matters

Since 2003, Belgium organises an EOD course in French and in English to train team leaders of other countries. It should be underlined that one course in each language is organised every year and that there are only a limited number of places available.

For Since 2008, and due to operations in Belgium and abroad, no international students were trained.

Since Sep 2006, BEL contributes to UNIFIL with an Engr/EOD capability. More than 13.000 UXO (cluster Ammo) have been cleared since then.
Form G  Information to the UN-database on mine clearance

Article 11 para 2  “The High Contracting Parties shall provide information to the database on mine clearance established within the United Nations System, especially.............on:

- information concerning various means and technologies of mine clearance, and lists of experts, expert agencies or national points of contact on mine clearance

| High Contracting Party | BELGIUM | reporting for time period from | 01.01.2010 | To | 31.12.2010 |

**Means and technologies of mine clearance**

For detection purposes, two different man portable detectors are used, the one based on the magnetic principle, the other on dual sensors technique.

Only manual removal and disposal means are applied except for some IED devices where a remotely operated robot can be used during the handling process.

**Lists of experts and experts agencies**

Belgian Ministry of Defence :  SEDEE (Service for the removal and destruction of explosive devices)

ComOpsLand 2D (Operational Command Land – Engineers Branch)

**National points of contact on mine clearance**
