

275.12 DFS/PAJ

The Permanent Mission of Switzerland to the United Nations Office and to the other international organisations in Geneva presents its compliments to the Office for Disarmament Affairs (Geneva Branch), and has the honour to submit Switzerland's 2017 Annual Report according to article 13 paragraph 4 of the "Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices as amended on 3 May 1996", annexed to the 1980 "Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May be Deemed to be Excessively Injurious or to have Indiscriminate Effects".

The Permanent Mission of Switzerland thanks ODA for circulating this report to all High Contracting Parties.

The Permanent Mission of Switzerland avails itself of this opportunity to renew to ODA the assurances of its highest consideration. *DFS*

Geneva, 31 March 2018

[continued]

The Swiss Armed Forces International Command SWISSINT is responsible for the pre-deployment training and preparation of members of the Armed Forces. These instructions (e.g. Mine Risk Education) raise awareness and assure the correct behaviour regarding mines, unexploded remnants of war and booby traps. The Swiss EOD Center (Competence center for explosive ordnance disposal, military and humanitarian demining) provides its internationally deployed experts with information on the CCW and its Protocols (including amended Protocol II) as part of the internal humanitarian demining course.

Information to the civilian population

The civilian population has been informed on several occasions on the results of the Conferences of the High Contracting Parties to the amended Protocol II by public statements of government representatives and annual public reports on the implementation of the Mine Action Strategy of the Swiss Confederation. At the occasion of the internal ratification process of amended Protocol II and the Mine Ban Treaty as well as during the introduction of the Swiss Federal Act on War Material, the Swiss Parliament and the civilian population have been informed repeatedly about the new obligations arising from the said legal instruments.

Form B Mine clearance and rehabilitation programmes

Article 13 / 4 / b "The High Contracting Parties shall provide annual reports to the Depository ... on:

(b) mine clearance and rehabilitation programmes;"

Remark: The territory of Switzerland contains neither mined areas nor areas suspected to contain mines.

High Contracting Party SWITZERLAND reporting for time period from 1 January 2017 to 31 December 2017

<u>Mine clearance programs</u> not applicable
<u>Rehabilitation programs</u> not applicable

Form C **Technical requirements and relevant information**

Article 13 / 4 / c

”The High Contracting Parties shall provide annual reports to the Depository ... on:

(c) steps taken to meet technical requirements of this Protocol and any other relevant information pertaining thereto;

Remark:

High Contracting Party SWITZERLAND reporting for time period from **1 January 2017** to **31 December 2017**

Technical requirements

Switzerland destroyed all its anti-personnel mines by 1999 and its anti-tank mines by 2013.

Any other relevant information

--

Form D**Legislation**

Article 13 / 4 / d

"The High Contracting Parties shall provide annual reports to the Depository ... on:

(d) legislation related to this Protocol;

Remark:

High Contracting Party

SWITZERLAND

reporting for time period from **1 January 2017** to **31 December 2017**Legislation

On 13 December 1996, the Swiss Parliament enacted national legislation prohibiting the development, production, brokerage, acquisition, import, export, transfer, stockpiling, use and possession of and any other activity relating to anti-personnel mines - APM (Swiss Federal Law on War Material). The only activities permitted are those which are directly related to the destruction of or the protection against APM. With entry into force of the amended Protocol II on 3 December 1998 and the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction of 1997 (Mine Ban Treaty) on 1 March 1999 for Switzerland, these international legal instruments became integral parts of the Swiss legislation. The definition of "APM" applied in the Swiss Federal Law on War Material was extended to the definition used in the Mine Ban Treaty and the amended Protocol II. According to the modified Article 8 of the Swiss Federal Law on War Material, "APM" is defined as any explosive device that is placed in or on the ground or any other surface or in their proximity and is designed or modified to explode by the presence, proximity or contact of a person and that is intended to incapacitate, injure or kill one or more persons. Mines designed to be detonated by the presence, proximity or contact of a vehicle as opposed to a person that are equipped with anti-handling devices, are not considered anti-personnel mines as a result of being so equipped. This amendment entered into force on 1 March 1999. In addition, the Swiss Parliament adapted art. 8 of the Swiss Federal Law on War Material to the exact wording of art. 2 (3) and art. 3 (1) of the Mine Ban Treaty. This amendment entered into force on 1 June 2004.

Finally, the Swiss Criminal Code (Title Twelve, esp. Art. 264h and 264j, see <https://www.admin.ch/opc/en/classified-compilation/19370083/index.html>) and the Military Criminal Code (Title Six, Art. 112d and 114, see <https://www.admin.ch/opc/fr/classified-compilation/19270018/index.html> - French only) criminalise the use of prohibited weapons as a war crime.

Form E International technical information exchange, co-operation on mine clearance, technical co-operation and assistance

Article 13 / 4 / e

The High Contracting Parties shall provide annual reports to the Depository ... on:

(e) measures taken on international technical information exchange, on international co-operation on mine clearance, and on technical co-operation and assistance;

Remark:--

High Contracting Party

SWITZERLAND

reporting for time period from 1 January 2017 to 31 December 2017

International technical information exchange

Switzerland participated in international information exchanges in various ways, among others, by providing technical information and practical demonstrations on Explosive Ordnance Disposal (EOD) systems for the contact-free disposal of Unexploded Ordnance (UXO) and mines, but also by organising training courses with the Geneva International Centre for Humanitarian Demining (GICHD), UNICEF, and UNOPS for Mine Action Specialists within the EAPC/PPF framework.

International co-operation on mine clearance / Technical cooperation
