Information to the armed forces, including the extent to which the CCW and its Protocols are part of military manuals and the training curriculum of its armed forces:

The introduction of the newly signed Convention on Cluster Munitions to the Armed Forces at the Croatian Defense Army was used to reshape and expand the curriculum time dedicated at all levels of education on the agreements, treaties, conventions signed and ratified by the Republic of Croatia. Starting at basic, advance and senior NCO courses it expands and gets more in-depth coverage all the way up to the War College level. This is particularly important today, as Croatia is a NATO member and its armed forces have to be well informed on the obligations and implications stemming from the many signed agreements and conventions that affect their actions during stability operations and other international deployments. The new expanded curriculum is being implemented from the beginning of September 2011.
