(a) other relevant matters.”

Remark:

High Contracting Party ESTONIA reporting for **25.08.2009** to **27.09.2010**
time period from

Other relevant matters:

In 1999 the US Government assisted in the establishment of the Explosive Ordnance Disposal Centre (EOD Centre). The EOD Centre is subordinated and led by the Estonian Rescue Board (under the Ministry of Interior). It conducts civilian EOD operations (neutralization of improvised explosive devices and unexploded ordnance, participation in police operations involving a potential risk of explosion and carrying out activities in the post-explosion scenes of an event) and provides EOD training. As of 2005, the new duties of the EOD Centre include reacting to CBRN (chemical, biological, radiological and nuclear substances) threats. Specialists of the centre were trained in the framework of the international Information Management System for Mine Action (IMSMA).

In 2005, an EOD platoon was established in Tapa Combat Support Training Centre for fulfilling domestic and international EOD tasks as a fully professional unit. At the beginning of 2008, an EOD Centre (equivalent to Company in the framework of Engineering Battalion) was established in the same Tapa Combat Support Training Centre. In the beginning of 2009 the EOD Centre reached IEDD (Improvised Explosive Device Disposal) capability.

From July 1st 2006 to January 10th 2007 one EOD team (fifteen personnel) was in a 5-day deployability readiness in the structure of the NATO Response Forces (NRF-7). From the 1st half of 2009 a Conventional Ammunition Disposal (CMD) team is in the structure of the NATO Response Forces (NRF-12).
