

No. 010/13

The Permanent Mission of the United States of America to the United Nations and Other International Organizations in Geneva presents its compliments to the Convention on Certain Conventional Weapons (CCW) Implementation Support Unit (ISU) of the United Nations Office in Geneva and is pleased to transmit to the ISU the enclosed Annual Reports of the United States for Amended Protocol II and Protocol V, and the Compliance Report.

The Permanent Mission of the United States of America avails itself of this opportunity to renew to the ISU the assurance of its highest consideration.

The Permanent Mission of the
United States of America,

Geneva, April 5, 2013.

DIPLOMATIC NOTE

PROTOCOL ON PROHIBITIONS OR RESTRICTIONS ON THE USE OF MINES,
BOOBY-TRAPS AND OTHER DEVICES

AS AMENDED ON 3 MAY 1996

ANNEXED TO THE CONVENTION ON PROHIBITIONS OR RESTRICTIONS ON THE
USE OF CERTAIN CONVENTIONAL WEAPONS WHICH MAY BE DEEMED TO BE
EXCESSIVELY INJURIOUS OR TO HAVE INDISCRIMINATE EFFECTS
(PROTOCOL II, AS AMENDED ON 3 MAY 1996)

Annual Report in Accordance with Article 13, paragraph 4

Name of High Contracting Party:

United States of America

Date of Submission:

4 April 2013

National Point of Contact:

Michael W. Meier

Office of the Legal Adviser,
Political-Military Affairs
U.S. Department of State
tel: 202-647-5183
fax: 202-736-7620

*This report may be distributed to interested States,
organizations and the public.*

Form A

Dissemination of information

Article 13/4/a

"The High Contracting Parties shall provide annual reports to the Depositary . . . on:

(a) dissemination of information on this Protocol to their armed forces and to the civilian population;"

United States reporting for time period through September 2012.

Information to the armed forces

The relevant doctrine, operational and training publications, and courses of instruction of the armed forces of the United States are routinely revised to incorporate the requirements regarding the use of mines, booby traps, and other devices contained in the Protocol.

Information to the civilian population

The U.S. Government has provided to the American Red Cross a copy of the Protocol and other relevant documents, and has asked that they incorporate information about the Protocol in its programs for the education of the American civilian population. In addition, the Department of State has produced a series of annual reports to the public entitled "To Walk the Earth in Safety" (the 11th edition was published in July 2012), which describe in detail the steps being taken by the U.S. Conventional Weapons Destruction Program to address landmines, explosive remnants of war (ERW), and small arms and light weapons (SA/LW) which can affect the civilian population in countries recovering from conflict long after the conflict ends. Conventional Weapons Destruction (CWD) is a comprehensive approach that includes humanitarian mine action, battle area clearance, clearance of ERW, SA/LW (including at-risk munitions and man-portable air defense systems - MANPADS), stockpile and cache reduction, and physical security and stockpile management. This publication may be found at the Department of State's website:

<http://www.state.gov/t/pm/rls/rpt/walkearth/2012/index.htm>

The Assistant Secretary of State for Political-Military Affairs and his staff in the Office of Weapons Removal and Abatement (PM/WRA) address foundations, corporations, religious and civic groups, as well as students ranging from secondary to university

level, to raise awareness of the landmine issue and encourage their participation in this comprehensive approach to CWD. Engagement takes place with domestic, foreign, and international entities. PM/WRA regularly updates a synopsis of Public-Private Partnerships made available to the general public electronically. More information about this initiative can be found at <http://www.state.gov/t/pm/wra/partners>.

Form B

Mine clearance and rehabilitation programs

Article 13/4/b

"The High Contracting Parties shall provide annual reports to the Depositary . . . on:

(b) mine clearance and rehabilitation programmes;"

United States reporting for time period through September 2012.

Mine clearance programs

In Fiscal Year 2012, the U.S. Department of State provided conventional weapons destruction (CWD) assistance that totaled \$149 million. CWD assistance includes funding for humanitarian mine action, and destruction and security of small arms, light weapons, and conventional munitions. The President has requested \$126 million for CWD assistance programs in Fiscal Year 2013. The United States remains the leading donor to humanitarian mine action around the world, with U.S. contributions since Fiscal Year 1993 totaling more than \$2 billion. These funds have provided assistance to more than 90 countries.

The U.S. Conventional Weapons Destruction Program helps countries to overcome threats from landmines, ERW, and at-risk weapons and munitions around the world regardless of the affected countries' stances on either of the international landmine treaties. A state may face one or all of these challenges and the comprehensive CWD program increases effectiveness of U.S. assistance by creating a flexible approach to addressing various threats. Consistent with the U.S. philosophy of helping other countries to develop the indigenous capacity to address these threats, the U.S. program also aids in the development of leadership and organizational skills of local personnel to sustain programs after U.S.-provided assistance is complete.

Landmine clearance remains a focus of our comprehensive program. In FY 12 projects in Afghanistan, Angola, Azerbaijan, Bosnia and Herzegovina, Cambodia, Colombia, Croatia, Ecuador, Georgia, Iraq, Jordan, Kyrgyzstan, Lebanon, Mozambique, Peru, Serbia, Somalia, South Sudan, Sri Lanka, Tajikistan, Vietnam, Yemen, and Zimbabwe specifically addressed landmine contamination. The State Department also provided funding to Kosovo to assist the Kosovo Security Force's Mine Action Center to improve the

ability to conduct quality assurance/quality control at demining and battle area clearance sites.

Assistance is provided both bilaterally and multilaterally, through the UN, NATO, the OSCE, and the OAS.

(Form B, continued)

Rehabilitation programs

The Patrick J. Leahy War Victims Fund, managed by the U.S. Agency for International Development (USAID), has been in operation in post-conflict and conflict-affected developing countries since 1989. The State Department Fund established the Fund to provide a dedicated source of financial and technical assistance for civilian victims of war who suffer from mobility-related injuries, including people who suffer from polio as a result of interrupted immunization services. This includes, but is not limited to, survivors of landmine and unexploded ordnance (UXO) accidents. In the past decade, the Fund has devoted the majority of its resources to the establishment and improvement of accessible and appropriate prosthetic and orthotic services, including physical and occupational rehabilitation services. In Fiscal Year 2012, the Fund contributed to programs in Cambodia, Colombia, the Democratic Republic of Congo, El Salvador, Ethiopia, Haiti, India, Kenya, Laos, Lebanon, Nepal, Pakistan, Rwanda, Sri Lanka, Tajikistan, and Vietnam, as well as numerous regional and international initiatives spanning multiple countries. To date, the Fund has provided more than \$200 million to more than 40 countries.

Moreover, through two other programs specifically focused on helping wheelchair users (some disabled as a result of ERW) as well as a broader cohort of people with disabilities, USAID provided an additional \$10.2 million in Fiscal Year 2012 in more than 30 countries, including Georgia, Iraq, Jordan, Kosovo, Montenegro, Nicaragua, Sierra Leone, and Zimbabwe.

Form C

Technical requirements and relevant information

Article 13/4/c

"The High Contracting Parties shall provide annual reports to the Depositary . . . on:

(c) steps taken to meet technical requirements of this Protocol and any other relevant information pertaining thereto;"

United States reporting for time period through September 2012.

| No change from the 2012 report |
|--------------------------------|

Form D

Legislation

Article 13/4/d

"The High Contracting Parties shall provide annual reports to the Depositary . . . on:

(d) legislation related to this Protocol;"

United States reporting for time period through September 2012.

Legislation

No change since the 2004 Report.

Form E

International technical information exchange, cooperation on mine clearance, technical cooperation and assistance

Article 13/4/e

"The High Contracting Parties shall provide annual reports to the Depositary . . . on:

(e) measures taken on international technical information exchange, on international cooperation on mine clearance, and on technical cooperation and assistance;"

United States reporting for time period through September 2012.

International technical information exchange

No change since the 2005 report

International cooperation on mine clearance

The U.S. Government aims to increase international cooperation and coordination among donor nations, recipient nations, international organizations, and non-governmental organizations to accelerate humanitarian demining efforts worldwide.

In addition to working with the governments of mine-affected countries to provide mine clearance training, mine awareness, and survivor assistance programs (detailed in Form B), the United States works with other governments through regular meetings of the Mine Action Support Group (MASG) and the United Nations Mine Action Service (UNMAS) to share information and increase coordination toward our common goal of eliminating landmines that threaten civilians. In FY 2012, the United States also supported the Geneva International Center for Humanitarian Demining's efforts to maintain and disseminate updated International Mine Action Standards (IMAS).

The United States also actively encourages private sector support for humanitarian mine action through the development of a network of public-private partnerships, with approximately 68 partnerships currently. A positive side effect of this unique partnership initiative is to raise U.S. public interest in and support for humanitarian mine action.

Technical cooperation and assistance

No change since 2005 report.

Form F

Other relevant matters

Article 13/4/f

"The High Contracting Parties shall provide annual reports to the Depository . . . on:

(f) other relevant matters."

United States reporting for time period through September 2012.

Other relevant matters

None.

Form G

Information to the UN-database on mine-clearance

Article 11 para 2 "Each High Contracting Party undertakes to provide information to the database on mine clearance established within the United Nations System, especially information concerning various means and technologies of mine clearance, and lists of experts, expert agencies or national points of contact on mine clearance."

United States reporting for time period through September 2012.

Means and technologies of mine clearance

- Deminer Personal Protection Equipment and Individual Tools
- Manual Mine Detection (with hand-held detectors)
- Mine Detection Dogs
- Mechanical Mine/Vegetation Clearance
- Mine Risk Education and Training
- Mine Action Center management and strategic planning (including information technology)
- Impact Surveys
- Technical survey (area reduction)

Lists of experts and expert agencies

- Office of Weapons Removal and Abatement (PM/WRA), Bureau of Political Military Affairs, U.S. Department of State
- Office of the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict (SO/LIC), U.S. Department of Defense
- Humanitarian Demining Research and Development program, Night Vision and Electronic Sensors Directorate, U.S. Army Research, Development, and Engineering Command, U.S. Army
- Countermine Training Support Center, U.S. Army Engineer School
- Humanitarian Demining Training Center (HDTC), U.S. Department of Defense

- National Geospatial-Intelligence Agency (NGA), U.S. Department of Defense
- Leahy War Victims Fund (LWVF); Wheelchair and Disability Funds, U.S. Agency for International Development
- National Center for Environmental Health, U.S. Centers for Disease Control and Prevention

(Form G, continued)

National points of contact on mine clearance

- Steven Costner, Director (Acting), Office of Weapons Removal and Abatement, Bureau of Political-Military Affairs, U.S. Department of State
tel: 202-663-0095
fax: 202-663-0090

- Dennis Hadrick, Deputy Director (Acting), Office of Weapons Removal and Abatement, Bureau of Political-Military Affairs, U.S. Department of State
tel: 202-663-0100
fax: 202-663-0090

- Colonel Gerald M. Muhl, Jr., Chief, EOD and HMA, Office of the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict, U.S. Department of Defense
