INTERNATIONAL COOPERATION ON MINE CLEARANCE:

ITF Enhancing Human Security (previously known as the International Trust Fund for Demining and Mine Victims Assistance) is a non-profit, humanitarian organisation founded by the Government of the Republic of Slovenia in March 1998, originally to help Bosnia and Herzegovina, and later other mine-affected countries in South East Europe (Albania, Croatia, FYROM, Montenegro, Serbia and Kosovo), with implementation of projects in the field of mine action. At the request of donors and affected countries, ITF expanded its activities to Central Asia, South Caucasus, North and West Africa, Latin America, Middle East and the Baltic States.

The mission of ITF is providing assistance to countries and organisations in their recovery from post-conflict and disruptive challenges and ensuring security of individuals and communities in the affected areas. This has been achieved by the following:

- (1) Raising and managing funds from a wide range of donors,**
- (2) Identifying and managing projects on behalf of national authorities and donors,**
and
- (3) Developing national and regional capacities to manage programmes and projects**

AMENDED PROTOCOL II

more effectively and efficiently.

So far, supported by various donors, ITF has contributed significantly to the resolution of the mine/ERW issue, carrying out over 3.100 mine action projects, clearing altogether approximately 139.3 million square metres of mine-polluted areas, including over 135.9 million square metres in South East Europe, over 2.1 million square metres in the South Caucasus and over 1.3 million square metres in Lebanon. Furthermore, 1.277 mine/ERW victims from South East Europe, the Gaza Strip, Libya, Lebanon, South Caucasus and Ukraine benefited from its physical rehabilitation programmes. So far, over 440.000 school children and adults, living in mine-polluted areas, received mine risk education directly, and over 610.000 family members indirectly. ITF has trained more than 1.100 experts in humanitarian demining, rehabilitation and mine action management. It also supported activities of national mine action centres in all mine-affected countries of South East Europe and the South Caucasus. Currently, ITF is providing capacity support to mine action centres in Afghanistan and in Libya.

Since 1998, 32 donor countries, the EU, UNDP, UNMAS, OPEC Fund for International Development, 399 international and local public and private companies, NGOs and individuals have allocated more than USD 414 million for ITF's activities. The matching fund mechanism ensures that, if donors agree, every US dollar, raised by ITF for its activities, is matched by an additional dollar provided by the US Government. The Government of the Republic of Slovenia has altogether allocated USD 13.5 million for ITF's projects and programs.
