### Steps taken to implement the provisions of Article 8

In line with its Mine Action Strategy for the period 2008 - 2011, Switzerland maintains its commitment to keep a level of expenditure of about 16 millions Swiss francs per year for assistance in mine action. These efforts in mine action include the problem of ERW. Both in 2006 and 2007 about 12 millions have been spent for mine clearance in 12 countries and 1 million for mine risk education programmes. Swiss cooperation has been carried out by the humanitarian aid sector of the Swiss Agency for Development and Cooperation, by the Peace Policy and Human Security Division of the Swiss Federal Department of Foreign Affairs and by the Swiss Federal Department of Defence through the assignment of specialised personnel and delivery of equipment for mine clearance (EOD system). The Swiss contribution includes the funding of the Geneva Centre for Humanitarian Demining (GICHD) with a total amount of about 8 million Swiss francs per year.

Switzerland dedicates about 12 million Swiss francs per year to mine clearance programmes in some of Africa's, Asia's and Europe's most affected countries. The Department of Defence budgeted 2 million Swiss francs for the assignment of personnel and up to 2 million Swiss francs for equipment to mine and UXO clearance programmes carried out by UN agencies or International Non Governmental Organisations.

Switzerland will work towards improving existing synergies between the assistance provided by the Department of Defence and by the Department of Foreign Affairs.
