#### **REHABILITATION PROGRAMMES:**

Social Issues and Psychological Support Department of the MOD of Georgia defines the needs of wounded military personnel, develops supporting programs, coordinates assisting projects and has established the database of wounded warriors and their family members for the elimination of the social and reintegration problems.

In 2017, 104 Georgian wounded military servicemen as well as 82 of the family members were rehabilitated in rehabilitation centre named after “Maro Makashvili”; moreover, 36 military servicemen were provided with prosthetic services in 2017.

Development of prosthetic rehabilitation capabilities in Georgia is ongoing with the USA support.

Rehabilitation of handicapped military servicemen through sportive activities is supported and pursued by the MOD of Georgia; Handicapped GAF representatives participate successfully in sportive competitions (“Invictus Games”) organized by the UK and the US sides, from 2014 (Georgian Team became Champions in sitting Valley Ball in September, 2017).

#### **CONVENTION ON CERTAIN CONVENTIONAL WEAPON**
