CONVENTION ON CERTAIN CONVENTIONAL WEAPONS
AMENDED PROTOCOL II

Form A

**Dissemination of information**

Article 13, paragraph 4 (a)  
“The High Contracting Parties shall provide annual reports to the Depositary […] on […]:

(a) dissemination of information on this Protocol to their armed forces and to the civilian population;”

**Remark:**

High Contracting Party:

Canada

Reporting for time period
from: 01/04/2013 to: 31/03/2014

**INFORMATION TO THE ARMED FORCES:**

Canada’s obligations as a state party to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction (Ottawa Convention) include agreeing never under any circumstances to use, produce, acquire or transfer anti-personnel mines. Therefore, these obligations encompass and go beyond Canada’s obligations as a state party to Protocol II as Amended.

On August 11, 1998, in order to ensure that all members of the Canadian Armed Forces were made aware of their obligations with regards to the Ottawa Convention, Canada's Chief of the Defence Staff distributed a memo to senior officials in the Department of National Defence:

a. notifying them of activities prohibited under the Convention;

b. highlighting the fact that when Canadian Armed Forces personnel are participating in military activities with armed forces of states that have not signed or ratified the Convention they are prohibited from providing assistance in the use of, or planning for the use of, anti-personnel mines; and

c. ordering that Canadian Armed Forces personnel be fully informed of obligations under the Convention.

The information contained in the memo was also posted on the Department of National Defence Intranet network and published in the Personnel Newsletter which is widely distributed across the Department of National Defence.
In addition, relevant personnel within the Department of National Defence have been informed of Canada’s obligations under Amended Protocol II pertaining to anti-vehicle mines.

INFORMATION TO THE CIVILIAN POPULATION:

Canada's obligations as a state party to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction (Ottawa Convention) encompass and go beyond Canada’s obligations as a state party to Protocol II as Amended. The Government of Canada has actively promoted Canada’s support for the Ottawa Convention through numerous public outreach efforts, the dissemination of numerous documents pertaining to the Ottawa Convention, the distribution of news releases to the media and providing information on a dedicated Government website managed by the Department of Foreign Affairs, Trade and Development Canada.

Form G  Information to the UN-database on mine clearance

Article 11, paragraph 2, “2. Each High Contracting Party undertakes to provide information to the database on mine clearance established within the United Nations System, especially information concerning various means and technologies of mine clearance, and lists of experts, expert agencies or national points of contact on mine clearance.”

Remark:

High Contracting Party: Canada

Reporting for time period from: 01/04/2013 to: 31/03/2014

MEANS AND TECHNOLOGIES OF MINE CLEARANCE:
Several Canadian non-governmental organizations and companies have the means to undertake various aspects of mine clearance, including surveys, demining, mine detection dog operations, mine clearance training, mine action information systems and project management. In addition, several Canadian non-governmental organizations and companies possess or have developed technologies that are applicable to humanitarian mine clearance. Additionally, the Canadian Armed Forces maintain the capabilities to mitigate explosive remnants of war threats for both domestic and expeditionary operations. More information on Canadian mine clearance capacity can be obtained through Canada’s principal point of contact on all mine-related matters. (See below.)

LISTS OF EXPERTS AND EXPERT AGENCIES:
Information pertaining to Canadian mine action experts and expert agencies can be obtained through Canada’s principal point of contact on all mine-related matters. (See below.)
