to: **31/12/2017**

dd/mm/yyyy

#### **MINE CLEARANCE PROGRAMMES:**

**Within the period of 1992 – 2017 the engineer units of the National Army have conducted mine clearance operations in those areas on the territory of the Republic of Moldova, which were contaminated with mines and unexploded ordnance (UXO) during World War II and Transdnistrian conflict of 1992, thus detecting and destroying 27070 mines and other unexploded ordnance:**

**1992 – 1993: - 4 163 mines and other UXO**  
**1994:            - 331 mines and other UXO**  
**1995:            - 576 mines and other UXO**  
**1996:            - 896 mines and other UXO**  
**1997:            - 574 mines and other UXO**  
**1998:            - 258 mines and other UXO**  
**1999:            - 311 mines and other UXO**  
**2000:            - 1698 mines and other UXO**  
**2001:            - 1586 mines and other UXO**  
**2002:            - 586 mines and other UXO**  
**2003:            - 255 mines and other UXO**  
**2004:            - 612 mines and other UXO**  
**2005:            - 916 mines and other UXO**  
**2006:            - 1251 mines and other UXO**  
**2007:            - 540 mines and other UXO**  
**2008:            - 1621 mines and other UXO**  
**2009:            - 1027 mines and other UXO**  
**2010:            - 886 mines and other UXO**  
**2011:            - 2268 mines and other UXO**  
**2012:            - 2171 mines and other UXO**

## AMENDED PROTOCOL II

- 2013:** - 1816 mines and other UXO  
**2014:** - 950 mines and other UXO  
**2015:** - 441 mines and other UXO  
**2016:** - 683 mines and other UXO  
**2017:** - 654 mines and other UXO

The minefields in the vicinity of the following communities: Cocieri, Chitcani, Copanca, installed by the military factions in 1992 during the Transdnestrian conflict, except of that near the community Pohrebea, had been cleared. Afterwards, during the period of 04 May – 09 August of 2000, the mined area near the community Pohrebea was also cleared by the engineer units of the National Army. At the same time, annually, the National Army is conducting de-mining/UXO response missions on the territory of the Republic of Moldova (except the transdnestrian region), over the found mines and unexploded ordnance (UXO) from the World War II time. The Central part of the Republic of Moldova could be defined as at high (Anenii Noi, Causeni, Stefan-Voda, Ungheni districts) and medium (Chisinau, Ialoveni, Hincesti, Nisporeni, Calarasi, Straseni districts) risk, when the north and south parts are at minor WW II UXO risk.

### REHABILITATION PROGRAMMES:

At present, no rehabilitation programmes are conducted.
